Circa primum capitulum tractatus libri physicorum

Moveri primo talis questio Utrum scientia naturalis sit scientia de omnibus rebus. Et arguitur primo quod non ... nulla est scientia naturalis ... scientia naturalis non est scientia de omnibus rebus quia ... [illegible]

naturalis est scientia de omnibus rebus quia ... [illegible] ... scientia naturalis est de omnibus rebus ... [illegible] ... In ista questione sunt tria ad articulandum(?) ... primo ... secundo ... tertio dubia ... [illegible]

esse id quod est singulare sive quocumque sive de quocumque
sive verum sive plurale dicitur aliquid. Secundo magis
stricte et sic accipitur solum id quod est singulare
et per eundem modum variatur sive quocumque sive de quocumque
dicitur aliquid. Tertio strictissime et sic accipitur
solum id quod habet veram proprietatem et veram entitatem
dicitur aliquid. Et ex hoc [illegible] ad dubium [illegible]
quidditative [illegible] id quod est singulare sit aliquid dicitur
quod si li aliquid capiatur primo vel secundo modo
quodcumque singulare est aliquid. Sed si capiatur tertio
dicitur tunc quod nichil est. Et si [illegible] ergo obiectum
simplex est nichil [illegible] negat [illegible]
conceditur quod [illegible] li aliquid tertio modo dicitur
quod [illegible] esse [illegible] et aliquid [illegible]
[illegible] vere [illegible]. Sed quia
ista opinio sit possibilis et unus magnus
doctor scilicet Burgonius tenet eam. Et habito
[illegible] quod obiectum [illegible] non [illegible] singulare quia
[illegible] non sunt [illegible] ut videbitur. [illegible]
[illegible] complexum vel res ad extra [illegible]
[illegible] et simpliciter. Et tunc [illegible] ad
[illegible]. Ad primum argumentum [illegible] ista [illegible]
[illegible] vel [illegible] dicitur [illegible]
aliquid [illegible]
[illegible]. Ad secundum argumentum
ista est vera [illegible] vel [illegible] quia [illegible]
[illegible] quod res [illegible]
[illegible] necesse [illegible]. Et de aliis [illegible]
[illegible] talis. Ad tertium argumentum
[illegible] quod sunt [illegible] vel sunt
ista [illegible] vel [illegible] sed sunt deus
qui est omnis veritas. Et si dicatur [illegible]
deus [illegible] sed [illegible] non [illegible]
[illegible]. Et tamen est quod deus non potest esse [illegible]
[illegible] simpliciter [illegible] omnia [illegible]
[illegible] ad [illegible] secundo perfectius [illegible]
sive quocumque sive de quocumque [illegible] aqua [illegible]
[illegible]. [illegible] Concedo quod sunt
vera sed dico quod [illegible] significat aliquid
[illegible] sed [illegible] dicitur vera [illegible]
et falsa. Secundum dubium est quo dicitur est
[illegible] vel res ad extra est obiectum [illegible]
est obiectum [illegible]. Ad dubium est dicendum
[illegible] opinionem [illegible] quod [illegible]
est obiectum [illegible] quod [illegible] est obiectum [illegible]
[illegible] intellectus [illegible] assentit [illegible] intellectus
[illegible] assentit [illegible] vel res ad extra [illegible]
quia [illegible] quod intellectus non
non assentit nisi [illegible] vel [illegible]

[illegible] complexum vel res ad extra [illegible]
[illegible] secundo quod notitia apprehensiva [illegible] complexum
[illegible] notitia adhesiva [illegible] est [illegible] vel
ad extra [illegible] terminatur [illegible] ad complexum quia
non [illegible] est [illegible] aliter non [illegible] complexum
[illegible] mediate [illegible] res
ad extra [illegible]. [illegible] res ad extra
est [illegible] obiectum [illegible] tamen [illegible] vel [illegible]
non [illegible] obiectum [illegible] quod [illegible]
et quia [illegible] ista [illegible] non est [illegible]
res [illegible] sed res [illegible] quia [illegible]
sit [illegible] non [illegible]. [illegible] non [illegible]
alia opinio ponit ista [illegible] quod res ad extra
non [illegible] est obiectum [illegible] primo [illegible]
quod [illegible] ad [illegible] apte rei [illegible]
[illegible] sit [illegible] notitia adhesiva
[illegible] ad [illegible] intellectus apprehendit [illegible]
sive [illegible] notitia apprehensiva [illegible]
[illegible] intellectus [illegible] vel [illegible] apprehensiva
apprehendit sit esse apte rei sicut [illegible] sit
[illegible] complexum quod [illegible] sui apprehensio
[illegible] quod [illegible] sic [illegible]
[illegible] ad sit esse [illegible]. [illegible] ista
via [illegible] ad [illegible] aliam opinionem.
Ad primum argumentum [illegible] intellectus assentit [illegible] quod
intellectus assentit esse rei ad extra. Ad probationem
quod non assentit [illegible] dicitur quod
assentit veritati [illegible] veritas [illegible] sit esse apte
rei sicut [illegible] sit [illegible] assentiendo illi veritati assentit
complexum. Ad secundum [illegible] complexum [illegible]
[illegible] vel [illegible] immediate [illegible]
[illegible] ad sit esse apte rei [illegible] ad complexum
vel ad [illegible] apprehensiva [illegible]. Et quod [illegible] ad
[illegible] non [illegible] dicitur quod complexum non
[illegible] ad [illegible] sic ad [illegible]
[illegible] apud [illegible] quod [illegible]
[illegible] assentiat. Ad ultimum [illegible]
[illegible] dicitur [illegible] vel [illegible] quod [illegible]
obiectum vel [illegible] secundo actu [illegible]. Ad [illegible]
[illegible] ad [illegible] non [illegible] dicitur quod [illegible]
[illegible] intellectus [illegible]
[illegible]. Ad secundum [illegible]
dicitur [illegible]
ad [illegible] non [illegible]
sed dicitur [illegible] qualibet [illegible]
ad [illegible]
[illegible] ad aliud [illegible]
Ad [illegible] aliquid [illegible] dicitur
[illegible]. Ad [illegible]

nec^a grad^a et Dicendum est ipsa est quod scientia non dicitur sic rationi
verum est ad istud responsum quod scientia naturalis non dicitur
de aliquo quod predicatur de pluribus attributis ad
primum subiectum et hec est verum aliquo modo ad quod sunt
attributa ut dicunt est Ad confirmationem quando dicitur quod
scientia refertur ad nec^a et quia et dicitur de quo dicitur est
dubius Ad aliud confirmatio dicitur quod subiectum est
sic dicto quod debet intelligi subiectum de aliqua
scientia Pro primo notandum primum est quod ad diversas
illas scientias pertinet hec scientia de illo subiecto quod
de aliquo a^o 2° et ex quo subiectum est primo notandum
2° est quod aliquam scientiam de aliquo quod pertinet
ad illam scientiam ex pluribus scientie hec de subiecto attributis
quod pertinet ad illam scientiam et hec est verum de terminis
sed non dicitur ad hoc verum non possumus scientie de aliquo
quod pertinet ad aliquam scientiam nisi scientiam quod habeat
aliquam attributionem et certitudinem ad subiectum propter illam
scientie quod sunt et sicut subiectum attributionis
pertinet ad illam scientiam Ad ultimam questionem tot sunt
de sic quod de tali communis non probatur subiectum
sunt ultime ad primum sed per quem quantitatem de
aliqua scientia non respectu motus scilicet
quod est oppositum sicut per dictis hic de quo Sequitur

Tercia Questio

Utrum ens mobile sit subiectum totius scientie naturalis
Et arguitur primo quod non quia ens mobile est subiectum totius
scientie naturalis quod est falsum quia non ab uno ad primum
manifestum 2^a per productorum quod nec hoc est mobile
quod est celum quod scientia naturalis quod de a^o quod de celo
nec hoc est mobile quod terra quod de scientia naturalis quod
de a^o quod de terra etc. ergo non est mobile est subiectum
totius scientie et proprie quod falsum Secundo sic ens
mobile est subiectum partis scientie naturalis ergo non est subiectum to-
tius quia quod subiectum de aliquo scientie debet esse adequatum
illi scientie aliquo modo ad sic adequatum toti et sic
parti quod est 2^a per oppositum quia quod sunt
ens mobile est subiectum scientie libri physicorum qui est unus
pars totius scientie naturalis Tertio sic ens mobile
est passio ergo non est subiectum quia quod non idem est
subiectum de scientia naturali et passio et dicitur quod ens mobile
est tunc quodcumque ergo est passio Consequentia nota
Quarto sic quod hoc esse est terminus tunc est dicitur esse
terminus tunc mobile cum illorum dicitur ergo est quia
non 2^a sed probat primo quod primo terminus quod hoc
ens est subiectum metaphysice ergo esse hic ens non est
subiectum nec 2^a quod mobile est passio est enim
passio entis ergo esse hic mobile entis mobile non est
subiectum totius scientie naturalis Quinto hec ens
ens complexum non est subiectum totius scientie naturalis quia
ens mobile quod est quod est de scientia naturali

quod de ente incomplexo sicut de ente mobili
sic ut 2° physicorum sicut quod hic est primum
complexum sicut motum 2^a quod nullum sicut
ens complexum est subiectum scientie naturalis Quinto
sic de pluribus scientie debent diversari cum passiones
principales de 1^a scientia quod predicatur ut patet primo posteriorum
aliquo de isto et ens mobile non diversatur
passionem principale quod scientia naturalis quod probat ens
tiendo totum processum scientie naturalis ergo quod sic
Sexto sic ens mobile non verificatur de aliquibus
principiis quod sic in ista scientia ergo quod falsum quia
quod subiectum debet esse tamen quamquam de scientia quod sic
alique sic verificatur de aliquibus de scientia quod sic
cum de omnibus non est tamen quamquam
a^a quod de scientia naturali quod de primo motore
ut 8° physicorum et tamen de eo non verificatur
hic ens mobile cum primus motor sit immobilis
ut ibidem Septimo sic ens mobile
tangitur mutatis scientie naturalis ergo est tamen quod
quod subiectum esse adequatum illi cum est subiectum
Et per quod non debet tangere cuius mutatis
Et tamen per quod ens mobile sic oportet ad
actus et prudentias moralis actus cum
separat de rebus sensibilibus quod sic enim moralia
et prudentia moralis separatur de ente sensibili
aliquo ens sensibile est ens mobile ergo ens sensibile
Octavo sic non est propria naturalia sic subiectum scientie
naturalis ergo quod falsum tamen quia quod unius scientie
unum debet esse subiectum et ante per quod 2° physicorum
dicentem quod non est propria naturalia per subiectum scientie
naturalis Oppositum arguitur Auctoritate cum communiter
ponunt ens mobile esse subiectum totius scientie
naturalis In qua erunt 3 articuli In primo
erunt notabilia In 2° conclusiones et in 3° dubia
Quantum ad primum est primum notandum quod hic
subiectum possit accipi multipliciter tamen de proposito sic
sumitur pro subiecto attributionis Secundo notandum quod subiectum
attributionis dicitur sic Est sumendum quod sumptum
notitie de scientia principalis predicatorum non respectu
cuius mutatis in ordine ad cuius notitiam
principaliter predicata sunt attributionis Tertio notandum
quod scientia est inter scientias naturales et scientias morales
primo quod scientia naturalis est scientia moralis
non prima est practica Sed scientia moralis
separat de rebus de quibus per operationem nostram
voluntariam possunt cognosci de bonis nostris et
utilibus et aliis sicut hoc ipsum Est scientia naturalis
separat de rebus solum cognitis sunt attributionis
admotus ut physicorum 2° terminus et 6° metaphysice
Ita 2° physicorum dicit quod scientia naturalis differunt per
motum et 6° metaphysice dicit quod physica est scientia
speculativa quod cum

constatus. Certo modo quod dicta sunt de scientia
naturali sive physica, metaphysica et mathematica. Quia physica
considerat de rebus et non solum de rebus secundum quod attribuuntur
ad motum; sed metaphysica considerat de rebus et prout
abstrahunt. Sola enim metaphysica considerat et ceteris
sed mathematica considerat de rebus et non solum secundum quod
attribuuntur ad quantum vel ad magnitudinem sive ad
mathematicas. Hec de primo articulo. Quantum
ad secundum. Est prima conclusio: nulla quantitas abstracta
est subiectum totius scientie naturalis. Prima conclusio sua
id est quod prima est de consideratione metaphysice, nec est subiectum
scientie naturalis sed quantum tamen abstracta est primum de consideratione
metaphysice. Ergo conclusio vera, quia non aufert propter
ultimo mobile. Secunda conclusio. Nec scientia naturalis
considerat de rebus secundum quod attribuuntur ad mo-
tum nisi quod ultimo mobili. Ergo non tamen abstracta
de consideratione scientie naturalis ut patet. Ergo quod nullum
tale est subiectum. Tertia conclusio: ens quantum
non est subiectum totius scientie naturalis. Prima conclusio
quod licet ens quantum [illegible] non est primo notum,
ergo non est ens subiectum, tamen quia prima et non
secunda quod licet ens quantum [illegible] propter [illegible] isti
primo ens mobile [illegible] prima tamen [illegible]
perfectior [illegible] motus suo [illegible] quod tamen
[illegible] tamen [illegible]

conclusio: intellectus prius cognoscit particulare vagum
quam universale. Probatur conclusio quia prius cognoscit particulare quam
universale per primam conclusionem et prius universale quam particulare de-
terminatum [illegible] conclusio vera. Tertia conclusio:
intellectus prius concipit rem sub ratione [illegible]
cognoscendi sub conceptu magis universali quam minus
universali. Probatur conclusio quia intellectus prius cognoscit magis
confusa quam minus confusa, sed per conceptum magis
universalem apprehendit rem magis confuse et per
conceptum minus universalem magis determinate. Igitur
etc. Quia non [illegible] patet per probationem
secundae conclusionis, quia facilius est cognoscere magis

et minus universale quod est minus confusum. Quarta conclusio:
prius intellectus cognoscit sub conceptu particularis magis

noscere sub conceptu magis vago quam minus vago.
Igitur conclusio vera. Quia non [illegible] patet per [illegible]

distinguere inter panteram quam inter plura, nam
per conceptum magis vagum intellectus distinguebit

[illegible] quia est minus vagus distinguebit [illegible]

tinguebit a pluribus. Quinta conclusio:
perfectius intellectus cognoscit rem sub conceptu spe-
cificato quam sub conceptu particulari vago vel etiam uni-
versali, et perfectius cognoscit sub conceptu minus universali quam
magis universali. Probatur conclusio quia perfectius est cognoscere
rem distincte [illegible] quam confuse. [illegible] perfectius est
eam cognoscere minus confuse quam magis
confuse. [illegible] cognoscit

inter sensibilia sensuum exteriorum ergo cognoscit illa
sensibilia et per consequens cognoscit ultra consequentia quia

hoc quod cognoscat aliquid patet primo 3º de anima.
Tertio sic nullus appetitus sensitivus sensibiliter causatur

Ad tertium dicitur sensus non ponit differentiam nisi in speciebus

[illegible] diversas contrarietates [illegible] causa obiecti

quod appetitus [illegible] non est distinctus a re ap-

ad [illegible] dicitur causa [illegible] Ad quartum dicitur
quod non est [illegible] diversis obiectis esse contrarietates diversas

Utrum quantitas

Utrum quantitas sit res distincta a re quanta
id est a substantia quanta. Et arguitur primo quod non.
Auctor physicorum libro primo dicit [illegible] si a corpore [illegible] pa-
ssiones removeantur ipsum non remanet nisi
materia et tunc remanet magnitudo quae illis est
terminata ergo magnitudo materiae est una et per consequens
quantitas non est distincta a substantia quanta. ¶ Secundo
sic quantitas [illegible] non est distincta a re alba
ergo nec substantia quanta quia omnis res alba est
substantia quanta. Antecedens [illegible] physicorum [illegible] quod album
est compositum quanto ergo quantitas non est distinc-
ta a re alba. ¶ Tertio sic quantitas est suscepti-
va contrariorum ergo quantitas est substantia quanta quia esse
susceptibile contrariorum proprium est substantiae ut patet [illegible]
[illegible] substantia [illegible] sufficienter est
susceptibilis successive [illegible] magis [illegible] quae
[illegible] formae contrariae non sufficiunt [illegible] quantitas
ergo quantitas est susceptibilis contrariorum. ¶ Quarto
sic: Omne per se divisibile est quantitas sed substantia
est huiusmodi ergo etc. [illegible] quod substantia [illegible]
[illegible] nota [illegible] per se divisibile
est [illegible] quantitas [illegible] seclusa omni
compositione adhuc substantia esset divisibilis ergo
probatio [illegible] alia substantia componitur ex
indivisibilibus quod non est dicendum. ¶ Quinto sic
omne habens partem extra partem situaliter seclusa omni
quantitate quod non est distinctum [illegible] quantitas
[illegible] substantia ergo etc. quia non ab [illegible]
[illegible] habens partem extra partem est [illegible]
[illegible] et non [illegible] superaddita ergo
esset [illegible] compositio et quantitatis [illegible]
probatio [illegible]. In oppositum [illegible] quantitas
sit distincta a re quanta quia deus annihilat
quantitatem conservando substantiam sine motu locali
[illegible] vel [illegible] ad invicem [illegible]
[illegible] ut [illegible] distincta
[illegible]. ¶ Consequentia probatur quia partes substantiae quae sunt
ad invicem sunt situatae [illegible] a b c [illegible]
[illegible] annihilatio a et b [illegible]
situatur [illegible] vel non. Si sic sequitur propositum
[illegible] seclusa omni compositione substantia [illegible]
[illegible] Si non tunc sequitur quod a est motum ad b
vel [illegible] prima [illegible] quia [illegible]
a b c [illegible] situatur [illegible] ad invicem [illegible] non
sunt [illegible] ergo [illegible] ¶
Ultimo sic [illegible] salvari non ponendo quod [illegible]
distinguibili a substantia quanta ergo non est ponenda
[illegible] quia non [illegible] non est ponenda pluralitas
sine necessitate. [illegible] salvari quod quantitas
sit ipsa est extensa et non per extensionem [illegible]
[illegible] salvari quod substantia est quanta
[illegible] et extensa et non per [illegible] superaddita.

¶ In proposito arguitur [illegible]. ¶ Primo sic auctor
physicorum [illegible] quod si substantia [illegible] sub duo-
bus [illegible] non [illegible] non esset [illegible] nisi
quantitas esset distincta a re quanta ergo etc. ¶ Consequentia
confirmatur auctor physicorum [illegible] quod [illegible]
non [illegible] possunt [illegible] passiones [illegible]
[illegible] non [illegible] nisi quantitas esset distincta
ergo etc. ¶ Secundo arguitur [illegible] primo sic qualitas
[illegible] est distincta a qualitate ergo quantitas [illegible] est
[illegible] a substantia quia non [illegible] quantitas [illegible]
magis et minus et tamen quantitas non suscipit magis
et minus ut patet per philosophum in praedicamentis ergo propositum. ¶ Confirmatur
[illegible] qualitas [illegible] quantitatis [illegible]
ut patet per philosophum in praedicamentis ergo quantitas a qualitate est
distincta a qualitate. ¶ Secundo confirmatur [illegible] quantitas
non est de virtutibus activis et passivis [illegible]
ut patet per philosophum [illegible] metaphysicae et tamen quantitas [illegible]
[illegible] activae et passivae
[illegible] quod quantitas [illegible]. ¶ Tertio sic [illegible]
[illegible] sequitur quod penetratio dimensionum esset
possibilis [illegible] contra philosophum [illegible] huius dicentem
quod penetratio dimensionum non est possibilis. ¶ [illegible]
[illegible] secundo [illegible] negat [illegible]
corpus [illegible] esset corpus [illegible]
[illegible] illud [illegible]
contra philosophum [illegible] huius dicentem quod [illegible]
dimensionum [illegible] mathematicas et
materiae dimensiones [illegible] quia
[illegible] et [illegible] dulcedo esset dimensi-
ones [illegible] magnitudo [illegible] esset [illegible] ab
[illegible] distincta et tamen stant simul [illegible]
[illegible] in lacte [illegible]
forma lactis in eodem [illegible] forma [illegible]
et dulcedo ergo etc. ¶ Quarto sic si quantitas
esset res quanta sequeretur quod possibile [illegible] esset possibile
[illegible] possibile [illegible] possibile per accidens [illegible]
[illegible] physicorum secundo de anima [illegible]
[illegible] quia color est possibile [illegible]
[illegible] magnitudo vel quantitas per [illegible]
[illegible] magnitudo est possibile quae [illegible] physicorum [illegible]
ergo [illegible] probatur quod possibile [illegible] sit possibile
[illegible] color est possibile [illegible] color [illegible]
magnitudo per [illegible] magnitudo est possibile
per accidens ergo etc. ¶ Quinto sic [illegible]
sic sequeretur quod omnis quantitas esset motus [illegible]
[illegible] omnis alteratio [illegible] augmentatio
et diminutio [illegible] sunt motus ad quantitatem ut patet per
physicorum quinto huius [illegible] vel quantitas vel [illegible]
est augmentatio vel diminutio ergo etc. [illegible]
quod omnis ille motus est ad quantitatem [illegible]
[illegible] per omnem quantitatem [illegible] alteratio [illegible]
[illegible] quantitas sit res quanta [illegible]
[illegible]

sor. secundum substantiam et secundum esse quia quantitas per ad
vniuersalem ergo ponitur quia actus quantitas est
similiter probatur quod ponitur altera actus quantitas
¶ Sexta sit pedalitas est distincta a sua
pedali ergo quantitas est res distincta etc. Quia
non aufertur nec pedalitas accidit sibi pedali
ergo est distincta etc. Consequentia non aufertur quia peda-
litas potest adesse et abesse sibi pedali per augmentum
vel per diminutionem potest enim si sua pedalis fit
semipedalis quo dato non est amplius pedalitas
ergo pedalitas potest adesse etc. ¶ Sexta videtur
[illegible] sit distincta ipso [illegible]
[illegible] non [illegible] sua pedalis [illegible]
non [illegible] pedalitate ergo pedalitas est distincta
etc. Consequentia [illegible] quia si pedale [illegible]
usque ad [illegible] sua [illegible] non
[illegible] pedalitas ergo pedalitas est distincta
a sua pedali. ¶ Septimo sic ista quantitas
esset sua quantitas [illegible] quod abstracta absoluta
[illegible] magis pedalitas et pedalitas etc.
non [illegible] [illegible] [illegible]
quia [illegible] quantitas non distinguitur etc.
[illegible] et abstractum ut pedale et pedalitas

ad [illegible] quod aliquid dicatur quantitas continua
[illegible] [illegible] [illegible]
est ad hoc quod aliquid dicatur quantitas distincta

Ex quo sequitur quod [illegible] est quantitas scilicet continua et
distincta ¶ Secundo est notandum quod [illegible] non
[illegible] [illegible] quantitas distincta quod
non est dubium quin quantitas distincta sit res
[illegible] ut [illegible] non [illegible]
¶ [illegible] [illegible] quod quantitas
non est distincta a sua quanta ¶ [illegible]
[illegible] primo sic ista aliqua quantitas non

quantitas [illegible] [illegible]
[illegible] quantitas per [illegible] est distincta

hic sortes. Tertia possit dici quod [illegible] [illegible] in 3° dubio [illegible] [illegible] [illegible] sequitur.

Utrum infinitum [illegible]

Utrum infinitum inquantum infinitum sit ignotum et arguitur quod non quia per infinitum [illegible] notitiam diffinitam [illegible] ergo etc. [illegible] quia [illegible] patet [illegible] 3° [illegible] primo celi qui [illegible] in [illegible] ipso nobis [illegible] [illegible]. Secundo sic [illegible] nobis notum de quo [illegible] aliquid [illegible] [illegible] [illegible] infinito ergo etc. [illegible] [illegible] patet quod [illegible] de isto primo [illegible] [illegible] infinitum [illegible] quod infinitum [illegible] ignotum [illegible] [illegible] ignotum [illegible] [illegible]. Tertio sic infinitum [illegible] infinitum [illegible] [illegible] [illegible] [illegible] ignotum ergo etc. [illegible] quia maior patet [illegible]

[illegible]

Circa istam questionem [illegible]

[illegible]

ergo quelibet oratio etc. Ad questionem secundo quaelibet quando
non habet omnes causas sibi nobis notas ergo in
causis etc. Et aqua causis eius sibi nobis ignotam
patet quia antecedens et prima questio et sequitur et quod secundo
sequitur quod ista aqua non habet omnes causas et
aliquam causam eius sibi nobis ignotam ergo quelibet est
nobis ignota quia etc. quod sequitur ex prima questione
patet per rationes. Respondeo per negationem ad illas
obiectiones. Ad primam licet aqua sit entia de locis
infinitalibus de quibus non habemus notitiam perfecte
determinatam. Ad secundum de illis habemus notitiam generalem
et confusam licet etc. ad obiectionem sicut comm.
dicta quod notitia divina sed sufficientia specifica
omnium notitiarum et una est confusa et generalis
sed non valent quia. Tertia questio
infinitum etc. quod infinitum sit ignotum ad primam
dicitur de secundo non dicitur secundo si infinitum de magnitudine
esset non esset nobis possibile cognoscere de quantitate
quanta ipsum esset prolatione. quaelibet enim non est possibile
nobis de aqua magnitudine perfecte cognoscere
quanta ipsa sit nisi ipsa sit nobis mensurata
et notificabilis per certa mensura nobis certa
et si infinitum in magnitudine esset ipsum non esset
nobis mensurabile et mensuratum nobis non
tamen ergo questio vera. Quia non antecedens patet quia nullo
modo perfecti artis et bene patet quia si infinitum
de magnitudine esset in eo essent tot bipedalia
quot pedalia quia in eo essent infinities
magnitudo totius mundi non tanta magnitudo
non sed mensurabilis et in aliis etc. quia non
antecedens patet quia de tali infinito non esset assignabilis
tanta magnitudo quin in eo esset maior assignabilis
secundo patet de se quia nobis non possumus cognoscere
de magnitudine nisi quod est certo ductarum pedum
vel mille etc. Iste primo questio quia non possumus
cognoscere de aqua magnitudine quanta
sit nisi sciamus quantitatem dimensionis ipsius etc.
et mensurabilem nobis notam et unam sed talis
species quantitatis ergo etc. quia non antecedens patet
et bene notum. Secundo patet quia si alia esset
species quantitatis maior esset ipsa sed infinita
sicut est ... ergo etc. Quia non et antecedens et
probatio patet. Ideo ille terminus vel conceptus non
importat magnitudinem etc. etc. mensurae cum
proportio ad quantitatem non habent etiam
addictorum infinitorum pedalium sed propter
vel etiam per substantiam corporis. Sed sicut sed de hoc
infinito. Si enim infinita pedalia remanerent
ab infinito de magnitudine. Ad hoc videndum est de
finito. Et si infinita pedalia sed addendo
ad hoc esset infinitum ergo non haberent
etc. Tertia questio. Si esset de finito
de multitudine non esset nobis possibile cognoscere
quanta esset de ea ... patet quia non est possibile nobis
cognoscere de aqua multitudine quanta sit de ea
nisi ipsa sit numerata vel numerabilis
sed talis multitudo numerabilis non est ... sed
nobis ... de ... quod non etc. Ad primum

omnibus patet ex dictis quod dico secundo. Restat adhuc et est
primum dubium principale. Utrum possibile sit intellectum
humanum infinita cognoscere distincte et solum
ad secundum. Quod intellectus non infinita cognoscit distincte.
Ad hoc sciendum quod cognoscere aliqua distincte
est quod sint infinita patet quia cognoscat duas
... distincte ... sunt infinita ergo
etc. Secundo dico intellectus sunt infinita cognoscere
distincte. Ad hoc sciendum quod infinitorum quodlibet sunt
distincte cognoscere patet quia non sed infinita de aqua.
Tertio dico quod non est possibile intellectum infinita distincte
cognoscere ad hoc sciendum quod patet quia non
et possibile intellectum infinitorum cuiuslibet habere
distinctas per limitationem sue capacitatis ... quare
Secundum dubium. Ad quid philosophus posuit illam propositionem
infinitum etc. quod infinitum sit ignotum. Dicendum quod causa
fuit quia Anaxagoras ponebat infinita principia
rerum naturalium ideo disputando contra eum dicit
... etc. Secundo si enim essent infinita principia rerum
naturalium sequitur quod nos possemus naturaliter cognoscere de nobis possibile
cognoscibile ... sequitur quod ad perfecte cognoscendum
aliquem effectum ex omnibus causis talis cognitio
esse ... infinitum etc. quod infinitum sit ignotum
ergo si essent infinita etc. Tertium dubium. Utrum
infinitum sit a nobis cognoscibile etc. ... dicendum
quod sumitur ... quod hoc infinitum sit ... sumpto
sive tamen vel etc. quantum vel terminatum ...
quomodo sequitur quod infinitum est ... proportionabilem quod de
hoc ... includit necessarium et unum ponitur. Secundo sequitur
quod infinitum sed difficile sumitur diffinitive quod
nominis patet quia secundo suam diffinitionem est quantum
non terminatum vel extensum sive tamen. Tertio
sequitur quod hoc infinitum sit omnia extensa et
omnia terminata sicut hoc ... sicut omnia
quanta et omnia entia etc. ... quod in ipsis
diffinitionem. Quarto sequitur quod hoc infinitum sit ...
... etc. Quinto sequitur. Intellectus commentator et
... dicit quod infiniti etc. quanti concipit
volunt enim dicere quod hoc quanti includitur in hoc
hoc infinitum ita quod hoc quantum de claro in hoc
hoc infinitum. Sexto sequitur primo quod infinitum etc.
secundum se ... sit cognoscibile. Patet quia cognoscibile
est etc. ista ... extensum sive tamen vel quantum
non terminatum ... ista ... infiniti.
Aliter dico quod si infinitum includat ... quantum
tunc infinitum non est cognoscibile etc. ...
... quod imaginatio non cadit in illo
... nec notitia vel non
se extendit ultra ymaginationem. Sed si infinitum sumatur
simpliciter ipsum est cognoscibile etc. Immo forte
deus posset infinitum ponere non sit ... Quartum dubium. Utrum quaelibet res de ... quod
quantitatis ... etc. et certa mensura. Et videtur quod
non ... hoc infinitum sed de puncto quantitatis ...
... non ... etc. ... mensuram ergo etc.
... quodlibet primo infinitum sed de quolibet ...
... ista linea perficeret constat quod iste ...

ad comparationem nec inequalitas quia continua non comparantur
quia certe sunt et inequalitas. Ad 2m. instantia quia de
istis tantum punctum unum infinitum sed circumlinea
esset nulla sed diceretur una linea ita bene
sicut si esset unum pedis quod isti duo non
comparantur [illegible] nec inequalitas [illegible] de 3o articulo.
Ad rationes. Ad primam quando dicitur infinitum secundum
[illegible] nec actu [illegible] tantum sicut Ad primam dicitur quod
philosophus diffinit [illegible] tamen infinitum [illegible] ad esse
[illegible]. Ad 2am quando dicitur [illegible] non
dicitur [illegible] Ad primam philosophus [illegible]
dicitur quod ponit [illegible] disputative [illegible]
[illegible] esset esse ignotum ad [illegible]. Ad 3am
quando dicitur infinitum [illegible] quod [illegible] nec actu [illegible] Ad primam
dicitur quod [illegible] non [illegible] sufficiens divisio [illegible]
quod infinitum est ens vel non [illegible] ens. Ad 4am
quando dicitur deus est infinitus [illegible] nec actu [illegible] dicitur
[illegible] et [illegible] dicitur quod [illegible] ad proportionem
[illegible] tamen quod [illegible] infinitus [illegible] rigore et [illegible].
Ad 5am quando dicitur motum [illegible] actu [illegible]
nec [illegible] Ad primam dicitur [illegible] philosophus dicit quod philosophus
voluit solum istas propositiones infinitus est motus
infinitum [illegible] tempus [illegible] stat quod [illegible] mo-
tus est infinitus [illegible] tempus [illegible] Et quando dicitur
[illegible] dicitur quod voluit quod magnitudo [illegible] infinitum
simpliciter [illegible] voluit dicere quod aliqua magnitudo
esset infinita [illegible] infinitum angelicis
[illegible] appetitus [illegible] Ad ultimam quando in-
tellectus cognoscit [illegible] nec actu [illegible] loquendo de
cognitione distincta. Ad philosophum 3o de anima
[illegible] dicitur quod loquitur de cognitione [illegible]
[illegible] de [illegible] veritas post [illegible]
[illegible] questionis decima ~~(questio)~~

Utrum omnia entia

naturalia sint determinata [illegible] omnia entia naturalia
sunt determinata ad maximum. Et arguitur quod
[illegible] quod ens naturale [illegible] non [illegible]
ad maximum ergo [illegible] quia non [illegible]
[illegible] quod ens naturale [illegible]
[illegible] quod [illegible] indivisibilia [illegible]

2o. [illegible] ignis [illegible] ens naturale [illegible] non [illegible]

[illegible] ens naturale [illegible] non [illegible] ad maximum
[illegible] quia non [illegible] quod si non [illegible]
[illegible] non debuisset determinasse de [illegible]
[illegible] non [illegible] quod [illegible]
[illegible] etiam [illegible] etiam
ad [illegible] determinatum ergo [illegible]
Quarto [illegible] non [illegible] ad maximum [illegible]
[illegible] naturale ergo [illegible] quia non [illegible]
quod [illegible] 3o [illegible]

[illegible] dato [illegible] ad [illegible] Videtur
[illegible] quia [illegible]
[illegible] non [illegible] ut [illegible]
[illegible] ens naturale [illegible]
[illegible] ens naturale. Quinto sit magnitudo
[illegible] ens naturale [illegible] non [illegible] determinata ad
maximum ergo [illegible] quia [illegible] quod
magnitudo [illegible] sit distincta a [illegible] quod [illegible]

[illegible] non sit distincta. Item [illegible]
[illegible] quod omnis magnitudo data [illegible]

Septimo sic velocitas motus [illegible] ens naturale
est tamen non [illegible] ad maximum ergo [illegible] quia
non [illegible] quod [illegible] magnitudine

ut philosophus [illegible] maior de [illegible] ubi

quia [illegible] quod [illegible] sit

principio eundi quo habet aliquo tempore duracionis secundum tempus ad maius et cetera. In oppositum arguitur auctoritate philosophi primo huius dicentis: Nec animal nec planta esse nec [illegible] corpus perpetuo continentur [illegible] magnitudine vel parvitate, quod non esset si essent terminata ad maius. Secundo sic: auctoritate philosophi secundo de anima dicentis: Omnium natura constancium positus est terminus et ratio magnitudinis et augmenti. In proposito dicendum [illegible] respondendo [illegible] quod aliquid sit dictum magnum maius vel maximum [illegible] id est magnum maius vel maximum [illegible] magnum maius vel maximum [illegible] corporeas. Alio modo [illegible] maius vel minimum [illegible] activitate vel [illegible] resistencia vel [illegible] velocitate vel [illegible] tarditate corporis. Et primo [illegible] ista que [illegible] articulo primo [illegible] magnum vel maius [illegible] magnum [illegible]. Et secundo [illegible] magis [illegible]. Et in tertio [illegible] ad questionem [illegible] forma. Et [illegible] articulus [illegible].

Quantum ad primum [illegible] puncta. [illegible] videbitur [illegible] sit dare maius [illegible] corpus [illegible] sit dare magnum [illegible]. Et [illegible] de maius [illegible] longitudinis. Et [illegible] an dandum maius [illegible] dandus maius [illegible].

Primo [illegible] primo [illegible] quod [illegible] dicitur maius [illegible] maius vel maximum [illegible]. Et est illud [illegible] non [illegible] [illegible] maius [illegible] sine addito esse idem [illegible] ut omnia [illegible] sit dare maius. Et quelibet [illegible] sit dare maius [illegible].

Alio modo [illegible] quod [illegible] non [illegible] maius [illegible] addito ut maius corpus [illegible] magis [illegible] activa [illegible]. Et [illegible] addita [illegible] magis [illegible] corporea. Et [illegible] activa [illegible] vel [illegible].

Ex quo sequitur [illegible] maius [illegible] addito [illegible] maius [illegible] addita. Et [illegible] articulo.

Secundo respondendo quod iste [illegible] maius [illegible] primo [illegible] complicat [illegible] magnum [illegible] maius. Alio [illegible] complicat [illegible] magnum [illegible] aliud [illegible] maius.

Ex quo sequitur quod ista [illegible] corpus sit [illegible] et [illegible]. Tunc sit [illegible] magnum corpus [illegible] corpori [illegible] maius. Negative sit [illegible] maius corpus [illegible] corpore [illegible] corpus [illegible] maius. Secundo [illegible] quod [illegible] non [illegible] maius vel [illegible].

Tercio respondendo quod nullum [illegible] refert [illegible] sit dare maius [illegible] corpus quod [illegible]. Et [illegible] sit dare maius [illegible] corpus quod sit [illegible] nullum [illegible] sit dare maius [illegible] corpus quod sit esse [illegible]. Et [illegible] sit dare maius [illegible] corpus quod sit esse [illegible].

Sperma [illegible] sit [illegible] dare maius [illegible] corpus quod [illegible] celo [illegible] ultimi [illegible] celum [illegible] maius [illegible] corpus quod [illegible] celo [illegible] magnitudine [illegible] maius [illegible]. Et [illegible] celo [illegible] corpora tota actu separata [illegible] celo sunt [illegible] separatorum ut videbitur [illegible] corpus totale actu separatum [illegible] maius [illegible] corporis totalis maius [illegible] corpus [illegible] magnitudo [illegible] maius [illegible] omnibus corporibus [illegible] corpus totale [illegible] maius [illegible] corpora [illegible] corpus totale. Est [illegible] ad unum totale actu separatum [illegible] ad ultimum celum quod [illegible] maius [illegible] corpora tota actu separata [illegible].

Secunda [illegible] celo [illegible] dare maius [illegible] corpus totale quod sit esse [illegible] celo [illegible] ultimum celum [illegible] maius [illegible] corpus totale quod sit esse [illegible] sit fieri corpus quod celum [illegible] celum non sit esse [illegible] magnum [illegible] ultra celum [illegible].

Tercia [illegible] dare maius [illegible] corpus quod sit esse per [illegible] celo [illegible] vel dabile [illegible] sit dare [illegible] aliud corpus [illegible] maius [illegible] celo [illegible] dare aliquod corpus ita magnum quod deus non possit dare maius [illegible] quod deus non esset omnipotens [illegible] quotcumque [illegible] data vel dabili non implicat contradictionem esse maius [illegible] ad esse illud quod [illegible] implicat contradictionem [illegible] dato aliquo corpore [illegible] deus non possit dare maius [illegible].

Ex quo sequitur [illegible] non omne corpus [illegible] est dare maius [illegible].

Secundo sequitur quod ista [illegible] maius corpus [illegible] est [illegible] maius corpus quod sit esse [illegible] ab esse ad posse [illegible] et [illegible].

[illegible] ab esse ad posse [illegible] maius [illegible] ad maius [illegible] maius [illegible] ita [illegible] maius [illegible].

[illegible] quod omne corpus dato vel dabili [illegible] dare maius [illegible].

Alio [illegible] quod [illegible] dato vel dabili [illegible] dare maius [illegible] complicat contradictionem.

Et tunc dubitatur [illegible] ad maius [illegible]. Et [illegible] magnum [illegible] esse [illegible] ad [illegible].

hoc racione. Oppositum et quia infinitum in magnitudine
nullo modo dicitur ex quo magnitudo infinita. Secundo quia
si esset tale infinitum non esset dictum ad maius
quia ad minus quamvis proveniret infinitum ex dictum
maiori respectu. Utrum tamen quamvis continuum infinitum
sit magnitudo dictum sed non eo magis dicitur
posse esse infinita per continua. Ista quia infinitum
nullomodo esset dictum. Et si esset et si quod utrum
esset maius et si esset dictum non eo esset non
minus. Ex quo sequitur quod ista continua non sunt a
magnitudine maiori quod magnitudo dicitur ad maius. Secundo du-
bitatur utrum deus possit creare unum corpus infinitum. In-
primo dicitur quod si infinitum non implicat contradictionem
deus potest infinitum creare si implicat non potest. Ratio
quia deus posset unum infinitum creare tunc
non posset creare unum aliud deus non [illegible]
[illegible] quo [illegible]. Dicendum contra. Tertio secundum pro
sunt duce perfectiones que deo attribuendo
continua que non deo attribuendo et omnis
[illegible] quod fuerit secundum perfectio
[illegible] Dicendum quod fuerit secundum perfectio
[illegible] perfectiones perfectio difficultatis

aliquod spatium a quo visibile non potest videri propter
magnitudinem distantie et a quo per quod non potest
videri propter nimiam distantiam. Sed visibile potest propter
visibilem non potest videri absumpta distantia
nec quantum sumpta distantia data est dabilis
distantia a qua non potest videri. Secunda pars patet per
[illegible] 2o de anima ubi dicitur [illegible] posita supra
sensum non facit sensationem. Notandum est quod
Co. prima: conclusio. Est dare maximam distantiam a qua
visibile potest multiplicare suam speciem. Prima conclusio quia
est dare id spatium a quo toto visibile diffun-
dit suam speciem et aliud spatium a quo non potest
diffundere suam speciem. Secundo patet quia species
non potest in infinita distantia multiplicare suam speciem
sed id spatium est maius a quo potest multi-
plicare speciem quia agens naturale non agit
in infinitum sed secundum conditionem virtutis [illegible] naturali quod
sequitur quod id spatium est maius a quo potest
diffundere suam speciem. Est etiam [illegible] na-
turali non potest [illegible] diffundi quod potest multiplicare
suam speciem ad maiorem distantiam. Videtur quod
conclusio [illegible] est quia [illegible] ad imaginationem [illegible]
[illegible] dispositum in quo ponitur visibile
dicitur maximum spatium a quo potest multiplicare
suam speciem. Ex quo sequitur quod est dare maxi-
mum spatium per quod visibile potest multiplicare suam
speciem patet quia id est spatium a quo et per quod
visibile potest multiplicare suam speciem ut [illegible]
[illegible] est dare maximum a quo per [illegible]
quod [illegible]. Secunda conclusio. Est dare maius
spatium a quo visibile potest videri. Prima conclusio
quia est dare maius a quo visibile potest multiplicare
suam speciem per conclusionem precedentem. Et id est maius
in quo visibile potest videri [illegible]
[illegible] in spacio esset visibile et visus
[illegible] videret visibile. Et [illegible] maior spatio
posset videri [illegible] visu a quo [illegible]

quia si visibile ponitur [illegible] id spatium non potest
diffundere suam speciem usque ad [illegible] visibile
quod non videtur. Tertia conclusio. Est dare
maius spatium per quod visibile potest videri
[illegible] [illegible] est dare ultimum [illegible] rei
[illegible] in [illegible] quia aqua [illegible]

id maximum spatium [illegible] et ponatur
quod visu [illegible] elongetur visibile a
visu et capiatur ultimum non esse [illegible]
[illegible] et sit a. Tunc [illegible] vel [illegible] a [illegible]
visibile videtur vel non. Si videtur. Tunc sequitur
quod spatium datum non erat maximum et

quod spatium. Si [illegible] a non videtur sed
[illegible] a erat ultimum [illegible] visionis [illegible]
[illegible] latitudinis [illegible]. Ex quo [illegible]
Quarta conclusio. Non est dare minimum spatium
per quod visibile potest videri. Prima conclusio sicut
[illegible] [illegible] [illegible] ultimum [illegible]
[illegible] [illegible] [illegible] [illegible]
[illegible] id spatium minimum per quod visibile
potest videri et ponatur quod visu [illegible]

et capiatur ultimum non esse appropinquationis et sit

datum non erat minimum. Si non sequitur quod a

conclusio. Est dare maius spatium per quod vi-
sibile potest videri propter nimiam approximationem.
Prima conclusio et ponatur quod visibile approximetur
visui quousque [illegible] videri. Tunc
capiatur [illegible] non esse visionis et sit
b. Tunc spatium interceptum inter visibile et
visum in b est maius [illegible] non potest
videri visibile [illegible] [illegible]
spatium non potest videri et quolibet maiori
dato [illegible] [illegible] posset videri [illegible]
[illegible] [illegible] [illegible] per quod [illegible]
videbatur. Sexta conclusio. Est dare minimum
spatium per quod visibile non potest videri propter
nimiam elongationem. Prima conclusio [illegible] [illegible]
[illegible] [illegible] visibile elongetur
a visu donec desinat videri. Capiatur
[illegible] non esse visionis et sit b. Tunc
spatium interceptum inter visibile et visum
in b instanti est minimum per quod non potest videri
propter nimiam elongationem et [illegible] non potest videri
et quolibet minori dato [illegible] [illegible]
quod possit videri [illegible] [illegible]
[illegible] [illegible] [illegible]. Tunc
[illegible] dare maximum visibile quod potest
videri [illegible] [illegible] maximum [illegible]
[illegible] [illegible] visionis ut patet [illegible]
sicut [illegible] 3a conclusio. [illegible]
non est dare minimum visibile quod potest videri [illegible]
sicut ponit [illegible] conclusio. [illegible] quod non
est dare maximum visibile quod potest videri
propter nimiam magnitudinem [illegible] [illegible]
[illegible] potest videri propter nimiam magnitudinem [illegible]
Quarta [illegible] est dare maximum visibile quod
potest videri propter nimiam [illegible] in [illegible]
[illegible] visibile [illegible]
Tunc [illegible] non est visionis [illegible]

esse maius. Ideo nec possit videri propter magnitudinem
parvitate. Et de ista conclusione non possit dubitari. Et hic
videndum utrum visus sit, et hic propter suam
parvitatem, et quomodo maior dato dicatur minimum
quod possit videri. Contra si arguitur probando quod
minimum quod possit videri quod ponitur quia ista
conclusio incipit vacillare, et illa utraque
dimicatur propter hoc quia videlicet non esse
in fine quia non videbitur sequitur quod spatium
datum non erit maius quam quod non videtur. Sed quia
quod sit contrarie sequitur cum visio sit, res non
videantur, quia dare primum instans sui esse et
de quanti et instans et dimicatur sicut ostensum
fuit admittendo. Quod illa conclusio incipiat
vacillare, et dicitur quod dimicatur propter hoc quod
incipiat videri, et dicitur ultimum finis, et concedo quod
dare primum instans talis corporis sicut non perdat
et instans non esse medium sicut quanti videtur
totum, et quantitatis medietas, secundo dicitur quod
quantitas dimicatur post hoc videtur aqua visibilis
minime visus videbitur, et non est dare
primum instans sui non esse et habet sicut dicta
de isto tertio puncto. Circa quartum punctum
est primo notandum et respondendo quod non est dare extremum
durationis rei permanentis, id est ista quod est extremum
durationis. Et sic et cetera, quod aqua
res non permanens subito corrumpitur et generatur
sed de se sequitur quod datur ultimum instans sui esse
et sic aliquid et corrumpitur et esse
quia tunc quantitas et sic res non permanet
subito generatur. Ista secunda conclusio
quod instans esse dimicatur quanti et consequenter et tamen propter
hoc consequitur quod non dare primum instans fore sub
his cadaver, quod res non permanet
sit quod instans id est a temporis adiunctum et dare ultimum
instans ad vel fore ad sic quod et cetera sicut
sic vel a sub dimicata vel non sit
sicut verum sit quod contraria sit dimicata. Quod
et sic quod primo conclusio medii. Tunc stat in da
sed quod aqua forma mediata in forma ad
diminuta et forma cadaveris ad non concedit.
Secundo notandum quod omnis mutatio sit de duobus
sicut contraria de se primum sive corrumpens
ut sicut exemplum sit contraria substantia ut homo
vel aquam corrupto cum contrario eius corrumpitur ad
hoc ad corrumpere. Et sic quod unica pars indis-
posita corrumpitur. Alia sit non
contraria de se primum sive corrumpens ut sit forma
corrupto cum eius contrario corrumpere ipsius de se
speciem corrumpere. Prima conclusio non
est dare maius tempus quod pro quo res
corrumpitur sit durans. Patet probando non sit.
Sequitur quod esset dare ultimum instans prius
in esse cuius est primum. Nota et quia quod
non possit durare usque ad quod corrumpitur sed
et de eius probatione sicut de ista conclusione res corrumpitur.

esse et minimum propter hoc quod igitur ad ultimum quod
sui esse. Ista secunda quod res non permanens substantia
corrumpitur quantum probatur contra quod de ista conclusione res
esse et incipit propter hoc. Secunda conclusio. Contra ar-
gumenta addit quod aqua res durans per alia tempora
non est quod attingat instans extremum vel tamen eius
tempus ergo quod pars. Nota tamen quod non requirit quod dicta
sit usque ad plus non esse hac dilatione. Tertia
conclusio. Non est dare maius tempus pro quo res cor-
rumpitur per durationem. Patet quia sic esset dare aliud
tempus pro quo res corrumpitur non possit durare et minus
nunc non hoc et de conclusione quod quod prius durare
permanens maius per minus. Tertia conclusio. Non
est dare maius tempus quod pro quo res corrumpitur non
potest durare. Patet conclusio quod sic esset dare aliquod tempus
pro quo res corrumpitur non posset durare et quod
ad dato dare minimum pro quo possit ultra pro opposito
non hoc et de propositione quod id quod non potest per minus
durare non potest per maius. Igitur conclusio vera. Quarta
conclusio est dare minimum tempus pro quo res corrumpibilis
non potest durare. Patet conclusio quod res corrumpitur et dicta
quantitas ad quod durationes quod non potest de assumpto
durare quantum et dicta ad maius potest pro quo
potest ad minus conclusio. Nec adminimum pro quo potest
per partem. Nec ad maius pro quo non potest per partem
non et aliud modo dicta adminimum pro quo
non potest per suppositum. Quinta conclusio est
dare minimum tempus de quo res corrumpitur potest durare.
Patet quia non est dare maius tempus pro quo res cor-
rumpitur non potest durare. Patet quod patet et de quo dare
maius tempus de quo potest durare quantum conclusio
et minus tempus pro quo non potest durare et maius
de quo. Sexta conclusio respondit primo probando
quomodo conclusio de qua res corrumpitur et reducitur
patet idem et tertia. Septima conclusio contraria quantum est bona de
via. Secunda et quarta conclusio. Octava conclusio quod res
corruptibilis potest durare per infinitum tempus et per infinitum
et per aliquid tamen non tamen quantum
per maius. Notandum et quod aliquid dicitur
id et tempore pro quo res illius potest durare et tempus
de quo ita quod id est maius pro quo. Et minimum
de quo. Probatur sic. Nam quia aut hoc sit adhuc
quod res durat per aliquod tempus et quod durat vel
illud tempus. Et hoc non requiritur adhuc quod dicitur
de aliquo tempore sed hoc et sic quod si potest durare per
unum annum sed quod non est conclusio patet impossibile
sit dicitur quod potest durare per unum annum et sic non
durat ultra. Secundo notandum quod non est dare ultimum
instans esse completi rei permanentis et dare ultimum
ultimum non sed corrumpitur ad et id est ultimum instans
esse completi. Prima conclusio patet quod de ista conclusione aliquid
completi et cetera patet quod et aliquid completi
tempus et aliquid sit, sed quod generatur quanti
patet dato aqua per ad et corrupta. Secundo
quomodo ostenditur quod ad generationem sequitur ut dare primum
instans esse rei permanentis. Ad primum sequitur dare
ultimum instans esse unius quia non dicitur primum et
finis et solus primum et esse completi et cetera.

Quarto sic: non est dandum minima caro quo questio illa quia ubi dicitur. Nam dico sic quod illa esset aut divisibilis aut indivisibilis. Non secundum quia tunc caro esset composita ex non carne. Non primum quia ipsum sit divisibile. Si primum aut ergo est divisibile in plures partes quarum quaelibet est caro vel quarum quaelibet est non caro. Non secundum quia tunc sequeretur quod caro non esset corpus homogeneum, consequens falsum. Patet tamen consequentia quia corporis homogenei quaelibet pars recipit denominationem specificam totius. Si primum tunc sequeretur quod quaelibet illarum partium esset caro minor ipsa data, et per consequens caro data non erat minima, quod est contra positum.

Quinto arguitur sic

Quinto sic: non est dandum [illegible] que [illegible] quia [illegible] non [illegible] de uno quam de alio [illegible] dicere quod omnis [illegible] data [illegible]. Ultimo sic: Non est dare minimum [illegible] quia non [illegible]. Nam dato aliquo [illegible] aut ipsum est divisibile in plures partes [illegible] est divisibilis [illegible] non [illegible] quod [illegible] non est minimum [illegible] non est convenientior [illegible] non est dare minimum [illegible] quod [illegible] est indivisibile quod est contra philosophum sexto huius [illegible]. Ad oppositum arguitur per [illegible] primo huius contra Anaxagoram quod est dare minimam carnem [illegible] quod carnis non est [illegible] in magnitudine [illegible] quod [illegible] carne non segregatur corpus [illegible] aliquid minus esse [illegible]. In hac questione erunt tres articuli [illegible]. In primo [illegible] secundo [illegible] in tertio dubia. Circa articulum primum est prima [illegible] quod [illegible] alia [illegible] vel [illegible] partes [illegible] ut partes [illegible] et [illegible] quarum [illegible] non est alia [illegible] vel [illegible] partes [illegible] ut [illegible] corpus [illegible] ab [illegible] ut [illegible]. Secunda [illegible] est [illegible] divisibilia [illegible] esse divisibile in aliquas partes [illegible] non esse divisibiles [illegible] indivisibilibus [illegible] philosophum sexto huius. Sed contra istud arguitur [illegible] non est divisibile [illegible] quia [illegible] quia [illegible] disponit ad corruptionem. Secundo sic: Nam in divisibile [illegible] ad [illegible] ita [illegible] ultime divisibilis [illegible] illa. Respondetur

Nondum quod [illegible] est divisibile. Nam [illegible] est realiter separata [illegible] partibus ab alia. Istud dicitur quod [illegible] non est divisibile ut patet [illegible]. Alia est divisibilis [illegible] imaginatione [illegible] per assignationem [illegible] ab invicem [illegible] realiter separatas et isto modo dicitur quod [illegible] divisibile. Ad rationes [illegible] dicitur primo [illegible]. Ad secundum dicitur quod ista [illegible] non [illegible] aliqua [illegible] in quibus [illegible] sequitur quod non est [illegible] in omnes suas partes [illegible] non [illegible] ultime divisibilis [illegible] et [illegible] non est divisibile [illegible] divisibilia [illegible]. Tertia [illegible] quod [illegible] corpus [illegible] per introductionem [illegible] dispositiones disponunt ad suae formae corruptionem et ad formae introducendae generationem [illegible] non potest corrumpi ab alio [illegible] nisi per frigiditatem [illegible] et [illegible] formae [illegible] corrumpere [illegible] formae [illegible]. Sed contra istud arguitur. Nam [illegible] naturalis [illegible] ultimum [illegible] suae corruptionis [illegible] quod [illegible] non possit corrumpi quod non [illegible] istas suae corruptionis [illegible] non esse [illegible] quia [illegible] non [illegible] dispositio introducta [illegible] dispositiones suae formae [illegible] sufficientes ad [illegible] formae cadaveris vel non [illegible] formae cadaveris [illegible] formae cadaveris [illegible] quod [illegible] et forma [illegible] in [illegible] plures formae [illegible] in [illegible] quod [illegible] sufficientes ad introductionem formae cadaveris [illegible] dispositio [illegible] talis [illegible] quod [illegible] ad generationem formae cadaveris [illegible] non [illegible] corruptibilis formae [illegible] probandum. Hic [illegible] admittendo [illegible] dicitur [illegible]. Ad [illegible] dicitur quod [illegible] non [illegible] sufficienter disposita [illegible] introductionem formae cadaveris. Secundo dicitur quod [illegible] habetur [illegible] sit disposita ad generationem formae cadaveris. Tertio dicitur quod [illegible] dispositio [illegible] per [illegible] quod [illegible] sit [illegible]. Quarto dicitur quod [illegible] formae cadaveris [illegible] et per hoc [illegible] obiectionis. Circa [illegible] quod [illegible] successive. Non [illegible] dare [illegible] ex quo [illegible] quod [illegible] successive [illegible] dare [illegible] non [illegible]. aliquid [illegible] fieri [illegible] quod sit subiectum [illegible] forme
[illegible] non [illegible] subiectum [illegible] quia
non [illegible] quod [illegible] a [illegible]
[illegible] subiectum [illegible] non [illegible]
[illegible] quod a [illegible] non [illegible]
[illegible] aliquid [illegible] fieri [illegible] quod id est [illegible]
[illegible] quod [illegible]
[illegible] quia [illegible] a fit vel [illegible]
[illegible] fieri totaliter [illegible]

resultat ex isto quod sit subiecte creatione ¶ Tertio
secundo quia quod est infinitum distat ab ultimo distat factione
naturalis a creatione distat factione simpliciter sive secundum naturalem et
ista sunt eius superius vera Item secundum omne quod fit
creatione fieri ex subiecto presupposito secundum quam potentia
educitur vel utrum possibile sit aliquid fieri
creatione sine subiecto presupposito secundum quam potentia
educatur ¶ Sequitur secundo quod tales conclusiones
distat factione creationis a non subiecto vel tota-
litate sive completa ¶ Prima conclusio
possibile est aliquid fieri sine subiecto presupposito probatur
quia deus fecit aliquid creatione quod creatio
vera prima non est ¶ Tenendo ipsam ex fide
catholice doctorum fidei catholice credimus
et cum quod deus de facto creavit celum et omnes
angelos et ista concesserunt concedunt doctores
quod est possibile aliquid fieri ex nihilo ¶ Secunda conclusio
vera est omne quod fit creatione factione
naturali fieri ex subiecto presupposito ista conclusio non est
demonstrabilis cum quod dicit ponimus et ipsa est
declarabilis per inductionem in qua non reperitur
instantia quibus talis inductio non sit demonstratio
ut ita ipso omnis ignis est calidus vel ista
omne verberatorum est peccatum tale non
demonstratur sed declaratur per inductionem ¶ Sed
ipse persuadetur quia omne factum
naturale a naturali actu habet quod totum corpus
fit ex subiecto presupposito ergo conclusio vera consequentia nota
antecedens et minor probatur primo sicut actio
actualis non potest esse sine subiecto Sequitur quod talis
actio naturalis fit in subiecto Secundo specialis talis
subiectum requirit dispositum ad eius productionem sed
quod est in materia precedens a qua dispositio actionis ideo
naturalis talis potest esse sine subiecto presupposito ergo sequitur
quod omnis actio naturalis fit ex subiecto ¶ Et tertio
similiter sicut est in artificialibus ita est in naturalibus
sed in artificialibus artifex non potest agere sine subiecto
presupposito ergo in naturalibus agens naturale non potest agere
sine subiecto presupposito antecedens patet quia ars imitatur naturam
et operatur per eosdem modos et minor patet deducta
quia domificator non potest facere domum sine li-
gnis et lapidibus sed subiectis presupposito ergo
et ita potest deduci in aliis ¶ Et hec de primo
articulo ¶ Quantum ad secundum articulum ¶ Est
sciendum quod quando conclusiones quidam antiqui vo-
luerunt intelligere contra fidei catholice videlicet
dicentes quod deus propria virtute non potest agere
facere sine subiecto presupposito ¶ Prima ratio est quod
possibile est aliquid fieri sine alteratione prima
est Alteratio prima presupponit aliquod subiectum
quod ista alteratio est alterationis et dispositio ergo probat
Ad istam rationem respondetur negando antecedens quia
sit possibile aliquid fieri factione naturali sine
alteratione prima etiam hoc possibile est in naturalibus
ponitur secundum naturale absque prima alteratione
¶ Secunda ratio fuit si esset possibile secundum quod possibile
fieri fieret contradictio implicat contradictionem ideo
possibile per admissionem sit a factum sine subiecto per

presupposito Tunc vel a fieri prius erat possibile vel
impossibile Si aliquando a fieri a fieri erat impossibile
sequitur oppositum Si a prius erat possibile quia a
talis potentia est non erat in deo quia potentia
ad fieri est potentia passiva ideo in deo
non est potentia passiva sed utrumque fuit quia
in eo est potentia ad facere ¶ Nec illa potentia
fundabatur in aliquo subiecto quia non erat tale per
adversarium ¶ Nec etiam fundabatur in a
quia a prius non erat ergo sequitur quod ante hoc
non fuit aliqua potentia ad a fieri et per consequens
a fieri erat impossibile et hoc est propositum Unde quod impossibile
fieri fieret ¶ Ad istam rationem videtur quod utrumque
a fieri erat possibile ad a fieri et a fieri erat
possibile ¶ Alia ratio dicitur quod illa potentia non erat in
aliquo quia illa potentia ad fieri ante eius
factionem nichil erat Et ideo non erat in aliquo
Sed bene aliquid erat potentia ¶ Unde similiter
aliquando potentia ad a effectum et tamen potest
ad a effectum ut patet Et hec ipse ... ¶
¶ Tertia ratio fuit secunda sequitur quod aliquid fit
instantaneum sed instantaneum contradictio implicat
et sit a factum sine subiecto presupposito per adversarium
Tunc a est instantaneum et tamen sine instanti
quia quando fuit illa instantaneo vel fuit
ante a vel quando a primo fuit Non ante a
quia non videtur quod fuisset illa instantanea Non
in eodem ut notum est quod est instantaneum
Nec sine subiecto presupposito per adversarium quia in instanti
est vera illa alteratio fuit quando a primo fuit
et tunc quod non instantaneum Sed est instantaneum
nec patet vel potentia ut notum est ergo propositum
¶ Ad istam rationem videtur negando quidam Ad probationem
dicitur quod illa instantaneum fuit quando a fuit primo
Ad improbationem quia tunc a fuit instantaneum et
respondetur quia quando dicitur quod est instantaneum erat de
statica non de mutabilibus instantaneis et
de instanti vere est instanti et quia non est prius
et posterius illa instantanea quando ad successiva
pertinet ¶ Quarta ratio fuit dicitur sequeretur
quod ad aliquid fieri prius fuisset aliqua dispositio
quia tunc nunquam prius fuit contradictio implicat
et contradictionem esse a factum etc ¶ Tunc ad a fieri
prius fuit aliqua dispositio ut notum est Sed quod
prius nulla fuit dispositio probatur quia quando
fuit illa alia ... a non ...
... quod ... erat talis vel et fuit ... a
... dispositio fuit ... a fieri ergo oppositum ¶
¶ Ad istam rationem videtur negando quidam consequentiam et
tunc ad probationem dicitur quod ad a fieri sine subiecto presupposito
non fuit aliqua dispositio prima ... ad
factionem angeli vel anime intellective non pre-
requiritur aliqua dispositio prima vel ... probat
... ¶ Quinta ratio fuit dicitur sequitur quod deus
posset ex solo aliquo effectum producere ...
... quia non presupponit subiectum presupposito sed
... ... quod ...
... ...

effectum per se solo compossibiles non ponimus. secundo arguitur multo fortius a fundamento in aliquo creato in subiecto quod unum esse tale per adiunctionem rei extra eius effectus productio quod falsum. patet quia multum augmentum effectus extra causam. quia multum [illegible] in deo [illegible] multis. ¶ Ad istam rationem dicitur [illegible] supple generari quia [illegible] adiunctum est [illegible] tamen non est. quia adiunctum dicit quod ille multum non sed in aliquo sufficienter. sed ille multum non sequitur effectus qui producitur de non esse ad esse ¶ Ex quibus patet quod iste rationes non concludunt aliquid contra veritatem fidei. sed de secundo articulo ¶ Conclusio ad [illegible] sed primum dicitur quod est fieri in subiecto. probatur aliquid sed fieri sine subiecto. probatur ¶ Ad dubium videtur aliqui quod fieri in subiecto, sed quod aliquid fieri ab agente in subiecto vel produci mediante dispositione qualificativa. sed contra istam [illegible] arguitur. Unde sequitur quod aliqua dispositio qualificativa fiet sine subiecto. probatur vel quod esset processus in infinitum in dispositionibus qualificativis quibus utrumque est inconveniens. Nam dicta dispositio qua fit in subiecto vel ipsa fit in subiecto mediante alia dispositione priori vel non. Si non sequitur quod fit sine subiecto. probatur. Si fiat mediante alia queritur iterum de illa alia utrum fit mediante dispositione priori etc. et erit processus in infinitum vel erit devenire ad unam dispositionem que fit vel fiebat sine dispositione qualificativa ¶ Item generatio fit sine mediante [illegible] sine subiecto probatur. cum non fit de eo mediante dispositione qualificativa ergo etc. ¶ Item motus celi fit sine [illegible] tempore sine subiecto. probatur cum non fit mediante dispositione qualificativa ergo alii [illegible] ¶ Aliter dicitur [illegible] aliquid fieri sine subiecto etc. sed illud fieri ab agente ad sui actionem requirente subiectum. probatur est fieri in subiecto. probatur sed illud fieri a solo agente ad sui actionem non requirente subiectum. probatur [illegible] quod anima intellectiva fit sine subiecto. probatur quod fit a solo deo qui non requirit subiectum. probatur sed contra [illegible] iste modus fit [illegible] [illegible] tamen non videtur sufficere. quia deus assumeret solum aliquam causam ad producendum animam intellectivam illa anima adhuc fieret in subiecto. probatur cum non fit a solo agente ad sui actionem non requirente etc. [illegible] quod fit sine subiecto. probatur quod fit ab agente ad sui actionem etc. ¶ [illegible] alii aliter dicunt quod fieri sine subiecto. probatur est formam fieri in subiecto a quo [illegible] dependet sic quod sine illo non potest esse sine subiecto. ¶ Sed contra hunc modum arguitur. forma [illegible] quod anima intellectiva fiet sine subiecto. probatur quia tamen patet quod anima intellectiva fit in subiecto a quo dependet quod sine etc. ¶ [illegible] [illegible] substantia [illegible] [illegible] quod per formam dependentem [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

Sed quoad produci non potest non sed de anima intellectiva ¶ Tertius sed aliter magis qui videtur melior quod fieri aliquid in subiecto. probatur etc. est formam fieri in materia ipsa concurrente in suo genere causandi quo concurrit ad producendum effectum de non esse ad esse et per oppositum fieri sine subiecto. probatur sed formam fieri in subiecto. probatur materia non concurrente in suo genere causandi quo concurrit ad productionem rei de non esse ad esse. Et eodem modo dicitur de educi de potentia materie. ita quod procedit [illegible] in proposito fieri sine subiecto. probatur et educi de potentia materie ¶ Tertium dubium sed utrum anima intellectiva educatur de potentia materie. Et arguitur quod sic. Nam anima intellectiva dependet de fieri et produci a materia ergo educitur de eius potentia. Consequentia nota. Antecedens quia de primo potest esse anima intellectiva ipsa de [illegible] fieri et produci et etiam in esse dependet a materia ergo [illegible] ¶ quia non causatur etc. sed minor probatur quod de primo potest esse anima intellectiva ipsa in genere materie ergo propter depende[n]tiam ¶ Oppositum arguitur quod ipsa creatur ut ponitur fides ¶ Ad dubium. dicitur quod anima intellectiva non educitur de potentia materie. Antecedens dicitur quod potest concedi aliquid quod anima intellectiva inhereat materie de primo potest sui esse ut genere generatur. quod tamen dependet a materia aliquo modo dependet de inherentis ¶ Et quamvis inferatur ergo educitur etc. negatur. quia ¶ Primum intentionis notandum quod duplex sed genus materie sive ratione effectus id est ratione forme. Unus est genus causalitatis quo genere ad productionem rei vel forme de non esse ad esse et isto genere materia ipsa non genere de primo potest ita quod anima intellectiva ¶ Secundus producitur. Unus sed oportet ad productionem ipsius anime intellective. Secundus alius est genus materiale ratione forme quo materia genere [illegible] quod formam ipsam formam [illegible] esse productam et isto genere materia [illegible] generat ratione anime intellective in primo potest sui esse ¶ Ex quo non sequitur quod anima fit in subiecto. probatur quod ad genere requirit primum modum generandi materie ¶ Quartum dubium utrum prima causa possit supplere causalitatem cause materialis vel materie prime ¶ Pro solutione notandum quod primam causam supplere etc. potest intelligi quod prius potest quod deus potest producere aliquem effectum per se solo quem producit cum materia prima concurrente in suo genere causandi materialis ¶ Secundo potest quod deus potest producere effectum per se solo secundo generando sicut [illegible] [illegible] cum materia prima ¶ Prima propositio deus potest primo intelligendo supplere causalitatem cause materialis. probatur quod deus potest producere aliquem effectum per se solo quem nunc producit cum genere cause materialis ¶ Probatur cum producere aliquem per se solo quem nunc producit cum genere materie prime. probatur ¶ Secunda propositio deus non potest supplere causalitatem cause materialis secundo modo. probatur quod deus non potest generare ad productionem effectus eo modo quo genere materia prima quod potest esse subiectum

quia prima est idem quod est potentia ad aliquid quod

potentia activa [illegible] est

3o notandum quod [illegible] distinguitur potentia
passiva [illegible] et est [illegible] pati

Et confirmatur: nam potentia materie ad formam perfectivam passiva [illegible] materia prima vel aliqua [illegible] superaddita, sed non [illegible] relata superaddita per [illegible] non est [illegible]. Ergo etc.

3us ar(ticulus)

2o articulo [illegible] ad [illegible] est [illegible] dubium utrum materia prima sit aliquis actus.

Et arguitur quod sic, quia ipsa [illegible] ad formam [illegible] actiua, quia quod [illegible] agere [illegible] appetit formam, ergo [illegible] ad formam. 2o [illegible] materia prima [illegible] actum [illegible] quia aliquid agens [illegible] perfectius [illegible] latitudine actuum [illegible] sub [illegible] latitudine [illegible] perfectior [illegible] quod aliquid actus plus participat [illegible] quam materia prima [illegible] forma [illegible] plus appropinquat [illegible] ergo [illegible] actus [illegible] forma [illegible] actus [illegible] adiungitur [illegible]. 3o [illegible] potentia [illegible] actus [illegible] ad formam [illegible] actiue [illegible] ergo materia prima [illegible] actiue [illegible] quia [illegible] potentia ad formam [illegible] potentia ad materiam prima [illegible] actiuitatis. Est primo notandum quod distinctiones dicte appetitus

appetitu intellectuali. Pro secundo notandum quod
appetitus intellectualis sunt sex passiones scilicet spes,
desperacio, audacia, timor, ira, mansuetudo

Utrum naturalis differat

Utrum naturalis differat a mathematico. Quod non.
Quia naturalis differt per motum et mathematicus
non. Et arguitur primo sic [illegible]
naturalis et mathematicus [illegible] quia non
[illegible] non differt a [illegible] quia naturalis
[illegible] naturalem et mathematicus
non [illegible] mathematicam [illegible]
[illegible] naturalem et mathematicam [illegible]
[illegible] naturalis et mathematicus. Secundo [illegible]
naturalis non differt a [illegible]
quia [illegible] naturale [illegible]
[illegible] naturalis [illegible] mathematicus

sunt naturales

scilicet intellectus agens et intelligibilis possibilis [illegible] quod
mathematica et scientia naturalis et per consequens scientia
naturalis non differt a mathematica. ¶ Confirmatur, quia
scientia naturalis et mathematica considerant de eisdem rebus
ergo etc. Scilicet quia propositio 3° de anima dicitur [illegible]
[illegible] scientie quadrimoda et rerum de quibus considerant
[illegible] prima scientia naturalis considerat de superficiebus
et magnitudinibus sicut mathematica ergo considerant
de eisdem rebus, quia [illegible] et [illegible] etc. ¶ Item
scientia mathematica differt a motu, ergo mathematica
non differt per [illegible], quia non dicitur [illegible]
naturalia [illegible] differunt [illegible] quod [illegible] et [illegible]
[illegible] aggregata [illegible] aggregatum [illegible]
et a motu, ergo mathematica differunt a motu.
¶ Item mathematica differt [illegible] quod scientia
plana [illegible] linea [illegible] in [illegible]
et punctus a quo [illegible] hoc [illegible] ad [illegible]
ad [illegible] sunt [illegible]. ¶ [illegible] [illegible]
[illegible] ad [illegible] a motu [illegible]
[illegible] et motu, ergo mathematica differt a motu.
¶ [illegible] naturalis scientia differunt per motum
ergo [illegible], quia [illegible] quod naturalis dif-
finit motum etc. et sine motu non [illegible]
possit diffinire [illegible] ergo naturalis differt
a motu. ¶ Item naturalis considerat de rebus [illegible]
[illegible] non differt a motu quod [illegible] [illegible]
[illegible] ergo [illegible]. ¶ [illegible] naturalis differt
[illegible] [illegible] a motu [illegible], quia [illegible]
[illegible] [illegible] differt [illegible] [illegible]
diffinitio [illegible] mathematica [illegible] non [illegible] [illegible]
[illegible] non [illegible] a motu. ¶ [illegible]
[illegible] [illegible] secundo [illegible] [illegible]
[illegible] [illegible] assignata. ¶ In [illegible]
[illegible] a primo non [illegible] [illegible]
3° [illegible]. ¶ Quantum ad primum [illegible] primo notandum quod
scientia naturalis considerat de rebus [illegible]
motu vel mobilibus [illegible] quod non considerat de [illegible]
[illegible] attributis ad motum. Sed mathematica
considerat de rebus [illegible] sunt quante vel men-
surabiles [illegible] quod [illegible] considerat [illegible] attributis ad [illegible]
vel mensuras. ¶ Secundo notandum quod [illegible]
[illegible] quod aliqua res [illegible] naturalis includit mo-
tum vel res motas [illegible] quod res non [illegible] natu-
[illegible] quod [illegible] [illegible] [illegible] naturas vel [illegible]

res [illegible] naturalis [illegible] [illegible] [illegible]
res motas quod includit [illegible] res naturales
[illegible] motum includit in re naturali [illegible]
diffinitionem nature quod est [illegible] [illegible].
¶ Tertio notandum quod [illegible] naturales sunt
[illegible] res [illegible] attributis ad motum
ut sunt [illegible] forma [illegible]
sed [illegible] mathematice sunt [illegible] [illegible]
[illegible] attributis ad quantum vel mensuras sed
sunt tamen [illegible] [illegible] [illegible]

¶ Quarto notandum quod scientia [illegible] naturalis considerat de
[illegible] in quibus [illegible] [illegible] quod [illegible] est
[illegible] naturalis [illegible] [illegible] [illegible] ista [illegible]
[illegible] [illegible] quod mathematica [illegible] sed [illegible]
[illegible] mathematica considerat de [illegible] [illegible]
[illegible] quod [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible]
sed scientia [illegible] [illegible] [illegible] [illegible]
in quibus [illegible] [illegible] [illegible] naturalis [illegible]
et [illegible] mathematica [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] et [illegible] [illegible] et [illegible]
[illegible] [illegible]. ¶ Quantum ad primum
est conclusio quod quelibet diffinitio rei naturalis
datur per [illegible] motum vel per [illegible]
vel [illegible] [illegible]. ¶ Probatur quod [illegible] res [illegible]
[illegible] res [illegible] naturalis includit [illegible]
[illegible] [illegible] 2° [illegible] [illegible] [illegible]. ¶ Secunda
[illegible] [illegible] scientia [illegible] differre [illegible] ad [illegible]
[illegible] non [illegible] sunt naturales et [illegible]
[illegible] [illegible] non [illegible] motum ergo [illegible]
¶ Confirmatur [illegible] [illegible] [illegible] [illegible] [illegible]
differt scientia naturalis [illegible] non sunt [illegible]

¶ Ex quo [illegible] primo quod scientia naturalis non
[illegible] [illegible] differt [illegible] vel [illegible]
[illegible] [illegible] vel [illegible]
[illegible] naturalis [illegible] motum [illegible]. ¶ [illegible]
quod ista diffinitio [illegible] [illegible] [illegible]

[illegible] Oppo[illegible] [illegible] ... [illegible] Oppo[illegible] dubi[illegible] est [illegible] hec [illegible] causa potest [illegible] [illegible] primo modo pro illo quod actualiter generat ad productionem effectus Et isto modo domificans dicitur causa domus et domificatio tempore quo domus fit et iste est [illegible] modus secundum [illegible] ex quo sequitur quod isto domificator non est causa domus que iam est producta

ipsum quia non generat actualiter ad productionem illius domus. ¶ Causae sumuntur magis large quam pro illo quod actualiter generat vel generabat / causa potentia propinqua sive generativa ad productionem effectus. Et isto modo similiter dicitur causa domus quae iam est producta, scilicet pater dicitur causa filii, cuius non generat actualiter nec tamen generabat / vel quia est in potentia propinqua ad generandum. ¶ Ergo secundum quod isto modo hic causa est explicatum. ¶ Tertio sumitur magis large, pro omni eo quod generat vel generabat vel in potentia propinqua sive generativa ad esse sive vel generationem eius effectus / et hoc sumitur vel [illegible] quia causa est nata sumi ad productionem [illegible] vel aliqui [illegible] [illegible] / quia secundo isto modo dicitur causa quae [illegible] generat ad esse vel si [illegible] [illegible] generat eius ad esse aliud. ¶ Quarto causa sumitur vel generativa quia solum isto modo est causa radix producti, / unde sicut quod non producit radix [illegible] generatur. Quarto sumitur ab aristotele prout se extendit ad [illegible] fuisset causa effectus [illegible] [illegible] [illegible] / et isto modo causa dicitur causa subiecto [illegible] [illegible] aliis / quia si fuisset prius fuisset causa [illegible] [illegible] [illegible] et iste modus valde amplus et improprius.

9º nota ¶ Secundo notandum quod duplex distinguitur effectus scilicet [illegible] productus / et [illegible] quod actu generat vel generabat / vel in potentia propinqua ad productionem novi effectus [illegible] vel [illegible]. Et [illegible] est [illegible] / [illegible] quod [illegible] [illegible] et generat effectum [illegible] per virtutem suam generatam / [illegible] sufficit sua virtute effectus dependet ex [illegible] [illegible] ad productionem alterius [illegible] ad [illegible] / [illegible] generat radicem et manet / sicut [illegible]

ex ¶ [illegible] sequitur / quod omne generans [illegible] cum effectu / [illegible] quia generans [illegible] et [illegible] effectum / [illegible] [illegible] [illegible] [illegible] [illegible] ipse effectus / [illegible] [illegible] esse [illegible] ipse effectus [illegible] [illegible] / [illegible] causa generans [illegible] vel [illegible] / [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

3m ¶ Tertio sequitur [illegible] effectus [illegible] [illegible] producit [illegible] [illegible] [illegible] quia producens [illegible]

Item ¶ [illegible] sequitur quod effectus [illegible] [illegible] [illegible] generans [illegible] subito desinit esse [illegible] quia effectus dependet [illegible] [illegible] [illegible] sua virtute generatam / quia subito auferret ipsum virtutem / effectus subito desineret esse. ¶ [illegible] notandum quod causa [illegible] [illegible] mediata et [illegible] immediata et mediata. [illegible] dicitur mediata vel immediata [illegible] dicitur immediata [illegible] effectus quia [illegible] [illegible] effectus [illegible] quia non agit effectum per aliquam causam mediam / et isto modo potest dici causa immediata [illegible] [illegible] et per [illegible] dicitur causa mediata quae est distans effectum [illegible] vel tempus mediatum. ¶ [illegible] causa dicitur immediata quia [illegible] [illegible] attingit effectum directe et non per aliquod medium / et isto modo causa dicitur mediata quae attingit effectum per aliquod medium / et isto modo color dicitur causa mediata visionis quia per [illegible] attingit medium [illegible] [illegible] [illegible]. ¶ Tertio causa [illegible] et [illegible] effectum dicitur immediata et causa [illegible] et [illegible] dicitur causa mediata / et isto modo [illegible] causa dicitur immediatissima quia ipsa est [illegible] [illegible]. ¶ [illegible] causa dicitur mediata quae [illegible] [illegible] [illegible] effectus aliud causam et causa dicta dicitur immediata / et isto modo [illegible] causa [illegible] mediatissima quia [illegible] [illegible] [illegible]. ¶ [illegible] notandum quod causa est [illegible] ad aliquem effectum [illegible] [illegible] una cum totius [illegible] effectus ut [illegible] [illegible] una [illegible] [illegible] [illegible] [illegible] [illegible] generat una cum totius [illegible] [illegible] vel motus / [illegible] generat non [illegible] una cum totius ut si ignis [illegible] producat aliud ignem [illegible] [illegible] [illegible] non [illegible] ad totum effectum [illegible] una cum totius quia una [illegible] producit una [illegible] [illegible]. ¶ [illegible] conclusio. generationem et quod tempore vel saltem non est predicta destructio vel alteratio est ex qualitate etc. quod fit alteratio. Quantum ad secundum. || Quantum

Ad Tertium || Instatur: quia quando rarefit aliqua res, aliquando acquiritur quantitas maior alia et fit acquisitio per unam totam quantitatem quae quodammodo corrupti fit nova et nova quantitas est corrupta quantitate, quaero ergo ista quae quantitas prius acquisita non remanet cum quantitate producta. Respondetur quantum ad propositum: requiritur ad salvandum successionem in tali alteratione oportet ponere formam destructionem aliqualiter, quando Robertus est forte quod non etc., quia quantitas in aliqua alteratione sit sic sicut [illegible] sicut angeli in tantum quod deus producit per unam formam quantitatem contra quod [illegible] sicut angelus corpore

[margin: Marsilius] Secundo oppositum contra quod sicut deus ita facit non fit in aqua successio vel actio motus primo propositio quia omnes illi antecedentes ad successionem actionis successive ergo sequitur quod oportet ponere formam destructionem ad salvandum successionem in alteratione. Contra est opinio magistri Marsilii: sed quod in rarefactione continue acquiritur nova et nova quantitas et quantitas prius acquisita non remanet cum quantitate producta tunc sit ad salvandum successionem in rarefactione oportet ponere aliam formam super additam quantitati etc. quando fit rarefactio ergo ita in alteratione quia non est ratio quare quantitas solum durat per tempus in rarefactione ergo sequitur conclusio ad productionem non est in deperditis sed et videtur in medio quod instanti producitur non resultat aliqua successio etc. sicut non ponitur aliquod spatium ergo ad salvandum [illegible] continuitatem et successionem oportet ponere ibi formam destructionem. Contra quod quantum ad verificationem actionis propositio non sufficit una res, oportet ponere duas et quia non sufficiunt duas oportet ponere tres sed ad verificationem [illegible] propositionis quod quantitas est successiva vel quod quantitas est [illegible] non sufficit alteratio et quantitas quia si tunc cessaret alteratio quantitas fit [illegible] et successiva etc. et manente [illegible] quia tunc cessaret alteratio remanet alteratio et quantitas ergo oportet ponere unam rem ad [illegible] propositi etc. non est nisi formam ergo propositio ||

Utrum motus sit res

Utrum motus sit res distincta a mobili et a loco. Et arguitur primo quod non

nec animal puta palmam nec ponderis

nec in ponderositas sine materie / et
4o quia animal puta palmam per hoc quod [illegible]

quia [illegible] deus potest separare albedinem ab
[illegible] conservare et [illegible] quantitatem [illegible]
deus non potest conservare motum [illegible]

quorum quod quid est pura privatio / quia
tunc ad extrinseca denominatio partem
primam localiter movetur / quo data sequitur motus
non distinguitur a mobili in eo primo sed motus
esse actus formalis ¶ Ideo vero
tempus est res distincta a celo ergo motus
localis est res distincta a mobili quia
quod tempus est motus localis celi et cetera
non propter tempus non [illegible] sunt [illegible]
et [illegible] partes [illegible] nec [illegible] quod

in mobili non potest [illegible] [illegible] [illegible]
ut notum est de [illegible] motus potest [illegible]

mobile / [illegible] motus non est [illegible] mobile et

[illegible] quod est [illegible] [illegible] [illegible] quod motus
localis non est aliqua res penitus alia
distincta a mobili localiter [illegible] [illegible]

mobili quod non localiter / [illegible] vero omnia
potest salvari non ponendo predictam mobili
localiter quia est ponenda quod motus potest res
distincta esse / quia non / ad omnia
potest salvari [illegible] quod mobile continue est
in alio et in alio loco prius et post una
quod [illegible] dicitur moveri localiter quod prius est in uno
loco et postea in alio [illegible] [illegible] quod ponere

[illegible] [illegible] [illegible] / [illegible] [illegible] [illegible] [illegible]
[illegible] quod deus potest movere totum mundum localiter
sine loco [illegible] non omnia potest salvari [illegible]
[illegible] quod mobile aliter et aliter se habet in ordine
ad locum ¶ Ad [illegible] [illegible] quod [illegible] [illegible] [illegible]

[illegible] mobile [illegible] in loco [illegible] [illegible] ab

ita [illegible] potest [illegible] deus [illegible] totum mundum

Utrum motus

Utrum motus sit actus entis in potentia. Et arguitur primo quod non, quia aliquis motus est actus entis in actu, ergo etc. Consequentia nota, quia actus et potentia opponuntur [illegible] tertio metaphysice, sed probatur antecedens, quia omne mobile est actu vel per aliquem motum mobile actu et actu movetur. Secundo, sed [illegible] quod [illegible] esset movens et mobile, sed quod [illegible] movens esset mobile [illegible] [illegible] secundum movens est et mobile, et quia [illegible] primum sit [illegible] quorum est idem actus, [illegible] est [illegible] per actus [illegible] scilicet [illegible] movens et mobile est idem actus. Sed cum motus sit actus, et actus mobilis [illegible] [illegible] tertio. Tertio, sed [illegible] quod motus esset actus imperfectus, sed motus non est actus imperfectus, igitur [illegible] consequentia [illegible] [illegible] [illegible] tertio [illegible] [illegible], quia motus est perfectio mobilis, quia [illegible] est in actu mobilis perfectio, respectu cuius imperfecta sunt [illegible] ingredientia [illegible]. Quarto, sed motus esset actus entis vel [illegible] [illegible] [illegible] actus stabilis [illegible] [illegible] actu actualis, sed cum [illegible] [illegible] actu, ut patet [illegible] mathematice [illegible] motus, ergo [illegible] actus et actus actualis [illegible] [illegible] motus localis et [illegible] [illegible] [illegible] [illegible] [illegible] et actus primus.

Quinto, sed [illegible] [illegible] [illegible] esse [illegible] potentia [illegible] [illegible] [illegible] [illegible] motus [illegible] actus omnis potentie [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] omnis. In oppositum arguitur [illegible] [illegible] in isto tertio [illegible] [illegible] [illegible] [illegible] primo [illegible] [illegible] et [illegible] [illegible].

Ad primum

Est primo notandum quod actus [illegible] est [illegible] [illegible] [illegible] aliquid [illegible] aliquid [illegible] aliquale [illegible] vel aliquantum [illegible] aliqualiter [illegible] [illegible] in actu [illegible] quale vel quantum vel [illegible] [illegible] [illegible] [illegible] [illegible] in potentia [illegible] [illegible] et actus, quia [illegible] [illegible] aliquid [illegible] actu [illegible] [illegible] [illegible] [illegible] actus in potentia. Secundo notandum quod duplex [illegible] aliquid [illegible] [illegible] [illegible] [illegible] [illegible] quia [illegible] perficit [illegible] vel [illegible] et [illegible] perficit [illegible] [illegible] motus [illegible] [illegible] motus [illegible] perfecte mobile. [illegible] [illegible] quia ipsa [illegible] [illegible] in motu [illegible] [illegible] et [illegible] [illegible] actus, quia vel motus [illegible] [illegible] [illegible] [illegible] mobile motum [illegible] [illegible] acquirendi. Tertio notandum quod duplex est actus, scilicet quidam est actus [illegible] [illegible] [illegible] actus [illegible] actus primus [illegible] [illegible] [illegible] et a qua capacitate procedit, ut [illegible] [illegible] actus primus [illegible] actualis [illegible] actus [illegible] actus [illegible] [illegible] actu [illegible] actualis [illegible] [illegible] actualis [illegible] actus [illegible] [illegible] [illegible]. Quarto notandum quod potentia [illegible] [illegible] [illegible] [illegible] actu [illegible] [illegible] [illegible] [illegible] de mediatio [illegible] [illegible] potentia ad [illegible] [illegible] [illegible] in actu [illegible] [illegible] in [illegible] [illegible] [illegible] [illegible] actu [illegible] [illegible] primo.

Ad secundum

Est prima conclusio: Omnis motus est actus [illegible] [illegible] omnis motus est forma [illegible] [illegible] aliquid [illegible] in actu [illegible] [illegible] [illegible] [illegible] in potentia [illegible] [illegible] [illegible] [illegible] in isto tertio. Secunda conclusio: motus est actus moventis et mobilis. Probatur conclusio [illegible] motu moventis [illegible] actus [illegible] [illegible] [illegible] in [illegible] est actus moventis [illegible] [illegible] motu mobilis [illegible] actus [illegible]. Tertia conclusio: motus est actus entis in actu [illegible] potentia [illegible] [illegible] [illegible]. Quarta conclusio et [illegible] motus est actus entis in potentia [illegible] conclusio, quia motus est actus mobilis [illegible] [illegible] [illegible] et [illegible] in potentia [illegible] conclusio [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] in potentia ad [illegible] [illegible]. [illegible] [illegible] Utrum motus sit actus primus vel secundus [illegible] [illegible] [illegible] [illegible] primo quod motus est actus secundus, probatur quia motus [illegible] [illegible] [illegible] procedit [illegible] actu [illegible] et actus [illegible] [illegible] [illegible] tertio [illegible] [illegible] [illegible] quia motus procedit [illegible] [illegible]. Secundo dico quod [illegible] motus est actus primus, probatur [illegible] [illegible] a qua nata est procedere [illegible] vel [illegible]. ~~Secundum dubium est utrum lapis privatus~~
Secundum dubium utrum si lapis privatus
perpetuo motu habeat sit motus [illegible]
quia non habet actualem tendentiam ad ulte-
riorem acquirendum illius motus sicut prima ve-
locitas motum perpetuum. ergo etc. Dif[illegible]
data motus lapidis perpetuo [illegible]
Ad dubium dicitur quod lapis non habet [illegible]
alius motus [illegible] quia [illegible] que [illegible]
[illegible] forma ergo [illegible] non habet ten-
dentiam actualem ad ulteriorem acquirendum
illius motus. Aliter dicitur quod lapis talis
dispositus quod [illegible] in [illegible] ymaginari
[illegible] tendentiam ad ulteriorem acquirendum
motus [illegible] et sic [illegible] appetat motum
perpetuum. Tertium dubium utrum ultra
[illegible] motus sit motus. Et videtur quod
non quia non [illegible] ulterius [illegible]
[illegible] non est in [illegible] tendentia ad
ulterius acquirendum illius motus.
Ad dubium dicitur quod [illegible] secundo dicitur [illegible]
[illegible] motus est [illegible] in [illegible]

[illegible] dicitur [illegible] articulus.

Ad rationes

Ad primam [illegible] motus [illegible]
quia quando motus [illegible] actu [illegible]

Utrum motus sit sub-

iective in mobili vel in movente vel
in motore vel utroque simul. Et arguitur
primo quod in movente quia motus est actus
moventis. ergo etc. Et [illegible] quia [illegible] actus
est in [illegible] actus [illegible] quod
[illegible]. Secundo [illegible] ab omni motore [motus fluit [illegible]]

quia [illegible] denominatur
[illegible] in [illegible] sit [illegible]
non dicitur albus ab albedine [illegible]
[illegible] quia ab omni motu [illegible]

[illegible] ergo [illegible]
motum movens [illegible]
[illegible] motum movens

[illegible] lapis quiescat quando [illegible]

mag. omni dubitatione. Quantum ad primum. Est primo notandum quod secundum doctores et quod appetitus quia bonum et quod omnia appetunt. Et dicitur primo ethicorum. Est ergo notandum quod duplex est appetitus. Alius dicitur naturalis vel inclinatio rei in suum obiectum cum conveniens propria ipsius potentie appetentis. Secundus appetitus naturalis dicitur inclinatio rei in suum obiectum cum conveniens propria ipsius potentie appetentis illud quod appetit. Secundo notandum potentie appetitus quod omnis inclinatio rei vel sit cum conveniens propria ipsius appetentis secundum ipsius rei. Et sic hoc non omnis inclinatio dicitur appetitus naturalis. Item sicut dicitur cum conveniens esse sit intrinseca quia inclinatio rei sit cum conveniens propria ita quod non fiet sine illis conveniens propria et ergo addit ad differentiam istud potentie quod sit ac si fiet cum conveniens propria esse. Tertio sic esse supernis in ac sine substancia ipse tamen naturam appetitus admonet de [illegible] quod licet ipse per congregat i ad quod inclinatio cum 1a inclinatio est naturalis ab uno sit ac si ad per congregat quod [illegible] decorso ac si esse [illegible] naturam et quod voluntate eadem [illegible] sed duplicem appetitum adesse decorso naturalem et naturalem quod [illegible] ad duos et [illegible] istos appetitus et aliquales [illegible] Quod primo dicit quod alius voluntas ipsius in conveniens per appetitus naturalis idem potentie in omnibus rebus sed eadem [illegible] cum in [illegible]. Secundo dicit quod appetitus naturalis sequitur formam in re secundum quod ideo dicitur appetitus alius dicitur sequitur apprehensionem boni vel est ipse appetitus voluntarius sequitur inclinatio [illegible] appetitus sed dicitur ad agere in [illegible] sed alius [illegible] eadem forma congregative [illegible] eadem [illegible] et [illegible]. Tertio notandum quod bonum dicitur duplex. Nam quoddam est bonum simpliciter sed idem dicitur conveniens ipse [illegible] conficere cum additis. Sed alius est bonum quod sit idem dicitur cum additis [illegible] bonum sed quod est bonum [illegible] [illegible] dicitur bonum simpliciter et [illegible] felicitati sit [illegible] simpliciter bonum [illegible] [illegible] cum [illegible] Consequentia [illegible] [illegible] aliquid et quod [illegible]

Tertio notandum quod [illegible] notitia sed [illegible] angelica humana et divina [illegible] notitia [illegible] intelligi tamen in [illegible] [illegible] divina [illegible] divina [illegible] notitia [illegible]. Nec [illegible] non adiungitur [illegible] quia [illegible] dicitur appetitus [illegible] adhesiva. Item adiungitur [illegible] apprehensiva et adhesiva. Item [illegible] apprehensiva [illegible] [illegible]. Nec adhesiva [illegible] [illegible] [illegible] in omnibus ipse [illegible] [illegible] sit [illegible] [illegible] aliquibus [illegible] notitia adhesiva [illegible] dici [illegible] [illegible] vel [illegible] quod dici [illegible] quod notitia adhesiva [illegible] notitia [illegible] [illegible] [illegible] [illegible]. Sed notitia dicitur [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] appetitu [illegible]. Pro [illegible] notitia sit [illegible] [illegible] et bonum [illegible] voluntas adeo et bonum [illegible] voluntas adeo [illegible] [illegible] quod deus [illegible] bonum vel appetitus [illegible] quod voluntas [illegible] [illegible] bonum vel [illegible] [illegible]. [illegible]

est facillima quia deus et intelligentie
sunt res perfectissime et maxime entitatis
¶ Tunc ponit duas conclusiones. prima
est ista quod scientia libri de anima quantum est ex
parte considerantis inter omnes scientias na-
turales considerantes de rebus corruptibilibus
est difficillima. probatur quia prima conclusio
difficillime potest apprehendi ipsam animam
quia res in eadem [illegible] sunt vel [illegible]
sed alie res naturales de quibus alie scientie
considerant sunt magis sensibiles vel sensui per-
ceptibiles. prima conclusio patet. ¶ Secunda conclusio quod scientia
libri de anima est facillima quantum est ex parte
rei considerande. probatur quia res con-
sideranda scilicet anima est maxime perfectionis
inter omnes res [illegible] [illegible] naturales
[illegible] de corruptibilibus. [illegible] [illegible] ¶ Sed
contra istas conclusiones arguitur. scientia ista est fa-
cillima ex parte rei considerande igitur
facillima ex parte rei considerantis. antecedens
est secunda conclusio. consequens est contra primam. consequentia
quia idem est considerans et res consideranda
scilicet ipsa anima. [illegible] si ex parte unius est facilis
et ex parte alterius erit facilis. ¶ Secundo
quia ista scientia est subtilissima et certissima
[illegible] igitur est facillima et certissima. ¶
¶ [illegible] [illegible] [illegible] [illegible]
[illegible] sicut res considerantes et conside-
randa [illegible] ipsa anima [illegible] [illegible] est anima ra-
[illegible] [illegible] [illegible] [illegible] ista scientia
est difficillima et facillima [illegible] est difficillima
ex parte considerantis quia considerans est
difficilis. [illegible] [illegible] [illegible] sic est facillima
ex parte rei considerande quia res con-
sideranda est [illegible] entitatis [illegible]

vel difficilem sed quia ipse [illegible]
ipsam animam esse [illegible] [illegible] aliis
rebus esse [illegible] ista scientia ex parte rei
considerande dicitur sibi esse facilis
¶ Aliter potest dici ut ipse dicit. ista scientia

quod difficultas dicitur esse [illegible] [illegible] [illegible]
[illegible] agendi vel patiendi acquirendi
vel deperdendi aliquid cum [illegible] labore
vel fatigatione. ¶ Sed facilitas [illegible] [illegible]

medii in anima, quod generatio mixti et
perfectio forme elementorum precedit formam mixti
sive formas mixtorum. ¶ Tertio, forme
perfectiores magis ad receptionem propinquius
accedunt, ergo anima est actus
primus. Sed quia quelibet forma est actus perfectionis
necesse autem est quod forma talis non perficiatur
in ea nisi una sit in perfectiori
perfecta tamen actus actionis sive in patiente
perfectio. Secundo sequitur ¶ Quod omnis anima est
actus corporis. Primo non omnis anima est actus primus
sed quia quilibet non dicitur actus primus et actus
secundum quod omnis anima fuit operatio procedens
ab ipso agente. Et sequitur ¶ Quod omnis
anima est actus corporis. ¶ Item arguitur
quod omnis anima sit actus corporis organici
probatur. Anime sunt actus et anima est actus corporis
organici, sed quia corpus organicum non
est corpus simpliciter sive simplex forma quod corpus
organicum dicitur, quod habet partes diversas
complexionatas ad diversa officia exercenda dis-
positas, ut oculus ad videndum,
auris ad audiendum etc. Non sunt actus
dicitur esse simplex prima, non est
¶ Tertio quod anima brutorum et anima est
non quod anima est actus corporis organici. Et
quia non contrariatur, patet quod anima saltem
diversitas non est omnigena et sequitur
quod pars capitis discrasia totius
et nobilis anima / Ex quo patet quod anima pre-
alia quod in modica porcione carnis
quod non est actus corporis organici et in
tota modica non est corpus organicum, sed
non habent partes dispositas complexionatas
ordinatas ad diversas operationes. Sed ut
non. ¶ Contra arguitur per philosophum
dicentem actus, sequitur secundo anima in
prima quidem an omnis actus anima sit actus
corporis. In secundo an omnis anima sit actus
in tertio an omnis anima sit actus corporis
organici et in quarto movit dubitationem.

Tertium

Ad primum est primo
notandum quod licet iste
terminus actus capiatur quandoque ut dicitur
de imperfecto, quandoque capitur pro forma informante aliquod
subiectum seu determinante aliquam formam. ¶ Secundo
notandum quod aliquando est actus dicitur imperfecte
unus est actus eius per inherentiam
sicut quod inheret ei. ¶ Tertio non per inherentiam
sed per assistentiam assistendo per modum regentis
ipsius materia dicitur esse actus sui orbis et sic
assistit suo orbi indistanter ipsum movendo
sed non tamen inheret suo orbi, quod tamen movet
ad modum sui orbis quod est forma. ¶ Et impossibile
dicitur capi hic actus iuxta operationem, tunc
actus per inherentiam quandoque ad actum per assistentiam
sed actus per inherentiam dicitur extendi aliquando
qui actualiter inheret et ad actum qui apti-
tudinaliter inheret sive inclinatione, unde
concedi potest quod licet anima separata actualiter
non inheret corpori, tamen quod naturaliter inclinatur
et tendit ad ipsum corpus. ¶ Tertio notandum
quod forma est eius dicitur. Primo quod forma in-
herens dicitur sive actualiter vel aptitudi-
naliter seu inclinative. ¶ Secundo est per formam non
inherentem dicitur sed coassistentem per apparentiam
motus corporis et per indistantiam ipsius
intelligentie celestes sunt forme saltem
prime intentionis que dicuntur assumpta ut post dicetur
et per ipsum adhuc dicitur ratio ut anima
humana separata et intelligentias eorum
humana videlicet inclinata adherere corpori sed
coassistit corpori movendo corpora
sed inheret non sic tale inclinationem
ad inherere suo orbi sed assistit in
distantie concedendo per ipsum motus operationes
et forma secundum capi quod inquit sic coextenditur
ad formam primo dicitur et ad formam secundo
dicitur. ¶ Quarto notandum quod anima est dis-
tincta quod inquantum sic coextenditur ad duas
secunda et ad anima separata et ad intelligentias
perfectas coassistentes suis orbibus per
apparentiam / Quarto notandum quod apparatio ad
concludendum ipsum dicendum qui non est anima istis
ut post dicetur. ¶ Secundo conclusio anima assistit
per formam inherentem actum. Probatur sed
in corpore procedit operationes vitales. ¶ Item
primus sic quod ipsa per quam agit patet ut tale et
una non est anima actus corporis per actuale
inherentiam, sed anima separata et de
intelligentiis perfectis actus patet et non
tamen inherent etc. ¶ Secunda quod anima est actus
corporis per inherentiam quod non potest fieri
inheret ipsi corpori actualiter ipsum corpus
per inherentiam. ¶ Tertia quod omnis anima est
actus corporis per inherentiam actualem seu inhe-
rentia ad inherendum seu per assistentiam
coassistentiam sed quod est anima humana

dicitur ab agente infallibili et cognosceret
Sed contra predicta dicitur aliquis si in homine est
sensus et intellectus idem scientia anima sensitiva et

secundum aliquorum quod aliud illatum [illegible] potest esse
dicendum quod non sufficit ad oppositionem duarum
scilicet delectationes simpliciter dicte scilicet tristicie
tamen quod sunt delectationes contrarie ad operaciones
obiectorum delectabilium aliter scilicet delectationes contrarie
ad intellectionem obiectorum et simul de tristitia

sequuntur sunt operationes et intellectus specie differunt

Quantum

Ad tertium
dubitatur primo petendo quod in eodem simul sta-
rent forma equi et forma asini utrum idem
dicendum debeat dici equus vel asinus.
Secundo quod idem non est vere unum sed
erit et equus vel asinus. Concedo tamen
et quod est equus et asinus et quod equus et asinus
habent eandem partem sed eandem unitatem. Secundo
dubitatur petendo per ymaginationem quod forma equi
est separata a sua materia et unitur forme
asinine utrum debeat dici equus vel
quod idem est forma equi. Secundo dico quod est

tamen utrum quod forma equi vel forma
forma asinina tamen forma non est equus
vel dicitur equus quia licet idem quod habet
forma equi tamen formam id forma equi non
est corpus proprium sub specie tamen sub forma est
nunc conveniens et scilicet quando forma equi
speciem tamen equus non convenit tamen quod ad suum
sub qua attribuitur dicitur esse dicitur a subiecto
et non est equus tamen ergo species sit id quod
tamen quod est species non non est unum composito
... et ideo quod numquam fuit a quo tale ... tamen
Secundo dubitatur ponatur casus quod forma asini et forma
equi sint separate a suis materiis et quod simul
tamen sunt unite in uno ita quod forma equi non
inheret forme asinine tamen sue forme et quod
idem eadem forma asinina inheret forme equine
tamen suo subiecto. Tunc quero utrum species sit
unum vel ita id. sit aliud. Respondetur quod de
tali tamen oportet non est aliqua species sed est agregatio
specierum diversarum sed vere non diceretur
unum aliquid vel pluribus aliis committi aliquid
Tertio dubitatur quia cum est quod in eodem alio ut
in capite vel aliquo non est in natura alia vel
quod id anima sit forma omogenea vel forma
eterogenea. Respondetur quod alia quam in aliqua parte
anima et eterogenea ita quod talem habes
speciem intellectualem anima quod est in capite et
alia que est in pede et cetera. Secundo quod pro
eo quod dispositiones qualificati contentes in ca-
pite differunt specie ab dispositionibus qualificatis
contentis in pede, igitur anime etiam partes
differunt specie. Secundo quia quod ad diversas species
dispositiones qualificatas sequuntur diversitates speciei ymaginis
formarum aut non. Et sic ad est quod
eterogenea est. Unde est eterogenea in materia
et est eterogenea in forma qua est natura
et actus plures. Probatur quia anima in actibus
operationibus et corporibus est corpus unum. Et
a principali anima que est in capite et quod est in pede
proveniunt operaciones specie differentes et specie principales
anime specie differunt quia que sunt diverse
operaciones dicitur diversitas priori patet per primo [illegible]
... non et quia a principali anima que est in capite
proveniunt visio et ab ea que est in pede
proveniunt motus. Et non in ipsa Tunc in ipso
pede est quod anima nondum in pede [illegible]
quia quod in pede est anima inde. Fortassis dicitur
quod si in pede anima habet organa [illegible]
sed quod non [illegible]
[illegible]

aia impria sensit(iva) et in pede quod non alit(er) loquendo non potest ibi habere organa. Quandoque ex parte [illegible] sensit. quod est magis [illegible] una intellectiva sensit(iva) sensit. utrum 3° [illegible] ab alio [illegible] quod in eodem alia ipsa aia est cor(de). homogenea ita quod omnes partes corporis aie sunt eiusdem rationis et speciei cum [illegible] sed actuali et organice ipsa aia sensitiva [illegible] [illegible] istud quod non sequitur quod alia non magis [illegible] esse [illegible] quia secundum non animalia [illegible] [illegible] quia quod potentia quod diversa accidentia [illegible] diversitas

Hoc scilicet quod eiusdem [illegible] actus est ad [illegible] speciei quod eiusdem habet actum [illegible] [illegible] quia quod eius habet actum [illegible] formam specialem puta formam oculi [illegible] [illegible] alia [illegible] habet plenam [illegible] ille forme quod [illegible] aie [illegible] in a [illegible] [illegible] predominium [illegible] [illegible] a for quod est in oculo. Unde sequitur [illegible] a principio vite usque ad finem in [illegible] speciei [illegible] quia quod a(lia) [illegible] dispositio organica in [illegible] in principio vite et [illegible] in fine [illegible] [illegible] ad [illegible] [illegible] dispositionum diversitas [illegible] specialem [illegible] [illegible] ad istud [illegible] applicari [illegible] [illegible] [illegible] [illegible] operationes [illegible] in eodem [illegible] [illegible] formas speciales.

Et [illegible] [illegible] ad [illegible] aliarum [illegible] [illegible] [illegible] [illegible] quod [illegible] [illegible] [illegible] [illegible] in ipso alia [illegible] [illegible] [illegible] dispositiones [illegible] conductio [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible].

Aliqui [illegible] dispositiones [illegible] [illegible] organice [illegible] [illegible] ipsa alia [illegible] ad extendendum [illegible] [illegible] [illegible] in diversis partibus seu organis [illegible] alias.

Tunc [illegible] [illegible] [illegible] ad [illegible] [illegible] [illegible] perdat de dispositionibus organicis [illegible] [illegible] non [illegible] quod ad diversitatem speciei dispositionum organicarum [illegible] [illegible] formarum in eodem alia.

Si non perdat de dispositionibus conductis [illegible] [illegible] [illegible] dispositiones conductio [illegible] [illegible] in [illegible] partibus [illegible] [illegible] [illegible] [illegible] [illegible] quod [illegible] diversitas [illegible] dispositionum conductarum in eodem alia [illegible] [illegible] formarum [illegible] [illegible] diversis aliis

[illegible] [illegible] dispositiones conductiue [illegible] [illegible] cordis alterius [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] alia [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] alia.

Ad [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] cordis alterius [illegible] dispositionibus [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible].

Unde [illegible] quod [illegible] [illegible] [illegible] [illegible] diversis aliis [illegible] [illegible] dispositiones conductiuas [illegible] [illegible] [illegible] [illegible] [illegible] [illegible].

iz motum unius aeris continuati usque
ad auditum etc. non diversi nisi posita
90 operimus sensus via. Cum istis sit contra
sonum 9°. Quod est prima conclusio arguitur.
contra sonum non enim aerem ad tantam distantiam
movet ad quantam potest sonus. Consequentia sit via
extinguentes candelam sufflando fortius
movent aerem quam alte cantantes sed sonus
talis movet aerem ad distantiam 20 pedum ergo
aer cantans movet aerem ad distantiam 20 pedum
et tamen auditur ad aerem distantiam 120
20 sit 9° quaeritur in generatione soni aer
undique velociter a corpore sonante vel
ad unam partem tantum ad quam sit dicitur quod
undique sicut ipse corpus sonans undique
vadum quod tamen magis sit sicut dici et [illegible]
nisi sicut per dispositiones sonus non audiretur
potentiam diversas positiones quod est quod apparentiam
3° modus ad apparentiam quod campana
pulsante auditur aeque ad distantiam unius
leuce et tamen non est unusquisque quod campana
ad tantam distantiam movet aerem sicut patet
sicut campana dum pulsatur non movet
aer ipse campanam quod est planum. 4°
patet sicut quod si [illegible] fortius tamen
interius clamarent non audiret aliquis
quod sit. Et tamen quia sicut potest clamare
aer transit ad planum [illegible] non audit
planum et planum clamante aer usque
potest pellere [illegible] planum non audit potest
quod aer non veniret ad auditum etc. sed
absque videtur. 5° arguitur quando corpus
[illegible] vel [illegible] homines sunt in
prima camera fortiter clamantes seu
cantantes quod tamen non spirat in una
fenestram aperta [illegible] tela [illegible]
parte in alia fenestra sicut [illegible] apparentiam
quod sonus corporibus auditur camera
et tamen aer non movet [illegible] camera
plurimus percipitur quod illa tela [illegible]
[illegible] aer [illegible] fenestram
utique movetur ergo etc. 6° ergo quod
a quibus potest est ista sonus [illegible] ad
aliquam distantiam valet sicut quod ut dicitur [illegible]
opinio [illegible] in medio sed aer
in generatione soni [illegible] aerem movet et
[illegible] ergo [illegible] sonus [illegible] in aere [illegible]

Bz dicitur ad sicut ipse corpus sonans movet
vacuum. Tertio modo quaeritur quod aer
non movetur a corpore sonante ad aerem
diversas positiones sic licet aer pellatur ab
una parte a corpore sonante. Et a quo
aliqua [illegible] aer sit sonitus. 3a. 9°
in projectione lapidis in aquam moventur
circulariter undulationes quia in projectione
lapidis in aquam ceteris paribus sed
quod undulationes tales a projectione lapidis
potentia [illegible] per [illegible] planum et
[illegible] non aer circumstans sit quod
dispositio et [illegible] quia aqua [illegible]
Bz dicitur aer est fluxibilior et mobilior
sicut movetur quam aqua ergo in aere
undulationes omnes [illegible] quam de aqua
Tertio modo quaeritur [illegible] licet sequitur
[illegible] aer est fugibilior et fluxibilior
quam aqua [illegible] non sit undulatio
in aere quam in aqua. 4a 9° sunt
soni [illegible] in medio aequalis durationis
et proportionis. Sicut quia una generatur ad
[illegible] quod alia generatur sicut 2°
prima sunt [illegible] aequalis proportionis et
ita arguitur de qualitate aliqua sicut sonus
[illegible] sunt [illegible] licet [illegible] soni in
[illegible] sunt [illegible] nisi [illegible]
aequalis proportionis [illegible]. Conclusio
sequitur quod sunt soni [illegible]
sed [illegible] in medio [illegible]
120 [illegible] sicut ipse corpus sonans [illegible]
[illegible] quod [illegible] a corpore
sonante [illegible] non [illegible] nisi sit [illegible]
[illegible] 9° [illegible] sunt
corrumpuntur in medio [illegible] de [illegible]
[illegible] sicut quod sunt soni corrumpuntur
[illegible] ut [illegible] et non corrumpuntur
a quo [illegible] quod non [illegible] aer
